Sunrise From the Van Door

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Watching sunrise from the open van door on a hilltop: sliding the door open, sitting on the step together, a coffee steam moment, his ears catching the birds and a lazy morning lie-down.

TIMELINE

0-5s	Door slides open
5-10s	Sitting together
10-15s	Coffee steam
15-20s	Ears on birds
20-25s	Lazy lie-down

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Door slides open): Inside the sage green camper van before sunrise, dim blue light. The owner's hand slides the side door open, revealing a wide grassy hilltop and a pale orange sky over far hills. The dog, standing just inside, steps forward to the edge of the doorway and looks out. Sound: door rolling on its track, cool wind rushing in, birds. 5-10s (Sitting together): Open side door of the camper van on a grassy hilltop, early sunrise with soft orange light low on the horizon. The dog sits on the door step beside the owner's knees in grey leggings, both facing the open valley, his white fur moving in the light breeze. Sound: breeze, distant birds, owner says quietly "look at that". 10-15s (Coffee steam): Same doorway at sunrise, soft warm daylight. The owner's hand holds a dented enamel mug of coffee with steam rising, resting on her knee. The dog sniffs toward the steam from a short distance, then turns his head away and looks back at the view. Sound: sip of coffee, breeze, a quiet snort from the dog. 15-20s (Ears on birds): Grassy hilltop in early morning sun, the van door step in the foreground, wide valley behind. The dog sits still, ears swivelling as a small flock of birds passes high above. He follows them with his eyes and head, staying calmly in place on the step. Sound: birds chirping overhead, wind in the grass. 20-25s (Lazy lie-down): Same hilltop, the sun now just above the hills, clear morning light. The dog stretches out on the grass right in front of the open van door, rolls onto his side in the warm patch of sun and closes his eyes while the owner's hand rubs his belly. Sound: grass rustling, a contented groan, owner laughs softly.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Door slides open

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
