Rest Day at a Riverside Campsite

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A lazy rest day by a river: lying in the grass, paddling in the shallows in his life vest, chewing a stick in the shade, watching ducks from afar and a nap by the van.

TIMELINE

0-5s	Lazy grass
5-10s	Shallow paddle
10-15s	Stick chew
15-20s	Watching ducks
20-25s	Van shade nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Lazy grass): Grassy riverside campsite, warm late morning sun, tall cottonwood trees, the sage green camper van with no writing or logos parked behind. The dog lies stretched out in the grass with his head up, watching the slow clear river a few meters away. Sound: gentle river flowing, birds, leaves rustling. 5-10s (Shallow paddle): Calm shallow edge of the clear river, sunny daylight, smooth round stones. The dog wears a bright orange life vest and wades in up to his elbows, pawing at the water, splashing, then lowering his nose to the surface to take a drink. Sound: splashing water, river murmuring, owner says "nice and easy". 10-15s (Stick chew): Shade under a cottonwood tree at the campsite, dappled daylight, dry leaves on the grass. The dog lies holding a thick raw stick between his front paws, chewing on one end, his white fur still damp and spiky from the river. Sound: wood crunching, river in the background, birds. 15-20s (Watching ducks): Riverbank at the campsite, bright daylight, calm water. Far across the river a pair of ducks floats near the reeds. The dog sits on the grass on a long leash, ears forward, watching them closely without moving, his tail still. Sound: ducks quacking far away, river flowing, owner whispers "just watch". 20-25s (Van shade nap): Beside the sage green camper van at the riverside campsite, mid afternoon, the van throwing shade on the grass. The dog sleeps on his side on a faded blue blanket, paws twitching slightly, while the owner's bare foot rests next to him. Sound: soft snoring, river, a light breeze.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lazy grass

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

No driving today. Just the river and a very wet dog.
What does your perfect rest day look like?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
