Starry Night by the Van

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A clear night far from town: stepping out under the stars, lying on a blanket, ears at night sounds, a headlamp check-in and heading back inside to sleep.

TIMELINE

0-5s	Steps outside
5-10s	Blanket lie-down
10-15s	Night sounds
15-20s	Headlamp check
20-25s	Back inside

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Steps outside): Open gravel flat at night, deep dark blue sky with many stars, the sage green camper van parked with a soft lantern light inside. The dog steps down from the open side door onto the gravel, his white coat easy to see in the dim light, and sniffs the cool air. Sound: quiet night, crickets, gravel crunching. 5-10s (Blanket lie-down): Thick plaid blanket spread on the ground beside the van at night, faint starlight and dim lantern light from the van window. The dog lies down on the blanket next to the owner's legs, rests his head on her shin and lets out a long breath. Sound: crickets, blanket rustling, a long sigh. 10-15s (Night sounds): Same blanket under the stars, dark night, faint light from the van. The dog lifts his head and turns his ears toward the dark hills where a coyote calls far away. He stays lying down, alert but calm, and the owner's hand strokes his neck. Sound: distant coyote howl, crickets, owner whispers "far away, it's okay". 15-20s (Headlamp check): Beside the camper van at night, a red headlamp beam from the owner lighting a small circle on the blanket. The dog looks into the red light, blinks, then rolls onto his side so the owner's hand can rub his chest. Sound: crickets, soft thumping tail, owner laughing quietly. 20-25s (Back inside): Sage green camper van at night, side door open, warm small lantern on the counter inside, stars above the roof. The dog hops up into the van, walks to his grey bed and lies down, then looks back at the camera from inside. Sound: van floor creaking, crickets, owner says "bedtime".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Steps outside

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Open gravel flat at night, deep dark blue sky with many stars, the sage green camper van parked with a soft lantern light inside. The dog steps down from the open side door onto the gravel, his white coat easy to see in the dim light, and sniffs the cool air. Sound: quiet night, crickets, gravel crunching.

Clip 2 | 5-10s | Blanket lie-down

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
