Laundry Day at the Campground

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Laundry day at a campground: waiting in the shade outside the laundry room, carrying a sock, folding help, a sock stolen from the pile and a nap on the clean towels.

TIMELINE

0-5s	Laundry wait
5-10s	Carries a sock
10-15s	Folding help
15-20s	Steals again
20-25s	Towel nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Laundry wait): Outside a small wooden campground laundry building with no signs, sunny late morning, a picnic table in the shade of a big oak. The dog lies tied on a long leash under the picnic table in the shade, watching the open laundry room door. Sound: washing machines humming inside, birds, kids far away. 5-10s (Carries a sock): Same campground picnic table in dappled shade, daylight. A canvas laundry bag sits on the bench. The dog pulls out a single grey sock, trots a few steps away with it in his mouth and looks back at the camera, tail high. Sound: fabric rustling, tags jingling, owner says "hey, that's mine". 10-15s (Folding help): Picnic table at the campground, bright daylight, a pile of warm clean clothes on the table. The owner's hands fold a green t-shirt while the dog stands with his front paws on the bench, nose sniffing the clean pile curiously. Sound: fabric flapping, sniffing, owner laughs "they smell like soap". 15-20s (Steals again): Campground grass beside the picnic table, sunny daylight. The dog lies on the grass with the stolen grey sock between his front paws, tail wagging slowly. The owner's hand reaches down and he releases it when she says drop. He then flops onto his side in the warm grass. Sound: tail swishing grass, owner says "drop it, thank you". 20-25s (Towel nap): Inside the sage green camper van, afternoon daylight through the open door, a stack of folded clean towels on the raised bed. The dog has climbed onto the bed and lies right on top of the towels, head on his paws, eyes closing. Sound: quiet van, a sigh, owner groans "of course".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Laundry wait

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
