Morning Wash at the Stream

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A morning at a shallow mountain stream: walking down the trail, paws in the cold water, her hands splashing her face while he drinks, a rinse of his muddy legs and a big shake.

TIMELINE

0-5s	Trail to stream
5-10s	Paws in water
10-15s	Face wash
15-20s	Leg rinse
20-25s	Big shake

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Trail to stream): Wide dirt path through a pine forest, cool early morning daylight, mist between the trees. The dog walks ahead on a loose leash down the gentle slope toward the sound of water, tail swaying, stopping once to sniff a fallen log. Sound: birds, footsteps on pine needles, a stream babbling ahead. 5-10s (Paws in water): Edge of a shallow, gentle mountain stream over smooth stones, soft morning light, pine trees. The dog steps in up to his ankles, lifts one paw at the cold, then puts it back down and stands in the clear water looking around. Sound: water trickling over stones, splashing, owner says "cold?". 10-15s (Face wash): Same stream bank, morning daylight. In the foreground the owner's hands with a long auburn braid hanging over one shoulder scoop water and splash it on her face. Behind her the dog laps from the stream, a few meters downstream in ankle-deep water. Sound: water splashing, lapping, owner gasping "so cold". 15-20s (Leg rinse): Flat rocks beside the stream, bright morning light through the pines. The dog stands still while the owner's hand pours water from a small metal cup over his muddy front legs, the brown mud running off and his white fur coming clean. Sound: water pouring, stream bubbling, owner says "almost done". 20-25s (Big shake): Pine needle path just above the stream, morning daylight. The dog steps out of the water and does a huge full body shake, water spraying in every direction toward the camera, fur sticking out in wet spikes. He then trots back up the path toward the camera, tail wagging. Sound: water spraying, tags jingling, owner shrieking and laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Trail to stream

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

Our bathroom this morning. His version involved shaking it all on me.
Would you wash in a stream?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
