Finding a Secret Camping Spot

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Following a dirt track to a hidden spot: bumping down the road, first steps out, exploring a meadow, checking out a little creek and settling in for the evening.

TIMELINE

0-5s	Bumpy track
5-10s	First steps
10-15s	Meadow explore
15-20s	Little creek
20-25s	Settling in

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Bumpy track): Back of the sage green camper van driving slowly down a rutted dirt track through tall grass, bright afternoon daylight, dust rising. The dog sits clipped into his harness tether on the back bench, swaying with the bumps, ears perked toward the front window. Sound: tires crunching on gravel, cabinets rattling, owner says "hold on". 5-10s (First steps): Small grassy clearing surrounded by aspen trees, warm afternoon light, the van parked with dust settling. The side door slides open and the dog jumps out, immediately putting his nose to the ground and zigzagging across the clearing. The owner's hand holds the end of his long training line. Sound: door sliding, leaves rustling, sniffing, birds. 10-15s (Meadow explore): Open meadow beyond the clearing, wildflowers and tall grass, soft late afternoon light. The dog trots through the grass on a long training line, tail high, stopping to look back at the camera, then bounding ahead again. Aspen trees line the edge of the meadow behind him. Sound: grass swishing, insects buzzing, owner calling "slow down". 15-20s (Little creek): Tiny shallow creek winding through the meadow, ankle deep and clear, late afternoon light. The dog steps in, drinks, then puts his face in and blows bubbles, ears dripping when he lifts his head. He then shakes his head, spraying droplets onto the grass around him, and looks back at the camera. Sound: water trickling, bubbling, owner laughing. 20-25s (Settling in): Aspen clearing at dusk, soft blue evening light, the van parked with the side door open and a lantern on the step. The dog lies on a mat in front of the van, chin on his paws, looking out at the empty meadow. Sound: crickets, aspen leaves fluttering, owner says "we found it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Bumpy track

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
