Van Life in the Snow

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Waking up to snow at a van camp: seeing the snow out the door, first jump into fresh powder, catching snow tossed from her mitten, snowy paw towel and warming up inside.

TIMELINE

0-5s	Snow surprise
5-10s	Powder jump
10-15s	Snow toss
15-20s	Paw towel
20-25s	Warming up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Snow surprise): Inside the sage green camper van, bright white morning light. The owner's hand slides the side door open to a forest campsite covered in fresh snow. The dog stands in the doorway, staring out, ears up, sniffing the cold air. Sound: door rolling open, muffled quiet, owner says "look at that". 5-10s (Powder jump): Snowy pine forest campsite, overcast bright morning light, fresh powder covering the ground. The dog leaps down from the van step into deep snow, sinking to his chest, then bounds forward in big hops, white snow sticking to his white fur. Sound: snow crunching and puffing, excited panting, owner laughing. 10-15s (Snow toss): Same snowy campsite, soft grey daylight, snow-covered pine branches. The owner's hand in a thick grey mitten tosses a small handful of powder. The dog jumps and snaps at it, snow bursting over his face. He lands, shakes his head and looks up for another toss, tail wagging fast. Sound: snow crunching, snapping jaws, owner says "get it". 15-20s (Paw towel): Van side door step, snowy campsite in the background, cold daylight. The dog stands on a rubber mat while the owner's hands rub each of his paws with a towel, small snowballs stuck between his toes falling off. He lifts each paw on his own when the owner taps it. Sound: towel rubbing, snow dripping, owner says "other paw". 20-25s (Warming up): Inside the sage green camper van, small van heater humming, snowy windows, a warm lamp on. The dog lies on his grey bed with a fleece blanket over his back, his fur damp, eyes half closed and relaxed. The owner's hand gently rubs his ears through the blanket. Sound: heater humming, snow sliding off the roof, quiet breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Snow surprise

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
