Beach Parking Morning

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A cool morning parked by the ocean: stepping out to the sand, running the empty beach, sniffing seaweed, a cautious wave check and a sandy rest on the van step.

TIMELINE

0-5s	Step to sand
5-10s	Beach run
10-15s	Seaweed sniff
15-20s	Wave check
20-25s	Sandy rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Step to sand): Sandy parking area beside a beach, cool overcast morning, grey ocean beyond low dunes. The sage green camper van with no writing or logos is parked facing the water. The dog hops out of the side door onto the sand and lifts his nose to the salty wind. Sound: waves crashing, seagulls, wind. 5-10s (Beach run): Wide empty beach, flat grey morning light, damp packed sand. The dog runs in a big loop on a long line held by the owner, ears back, sand flicking up behind his paws, then circles back toward the camera. No other people are on the beach this early. Sound: waves, pounding paws, owner cheering "go, go". 10-15s (Seaweed sniff): Tide line on the beach, overcast daylight, strands of dark kelp and small shells on the wet sand. The dog sniffs a pile of kelp very carefully, nose twitching, then pulls back when the owner says leave it. The sage green camper van sits on the sandy lot behind the dunes. Sound: waves, seagulls, owner says "leave it, gross". 15-20s (Wave check): Edge of the calm shallow surf, soft morning light. A small foamy wave rolls up the sand toward the dog. He backs up quickly, then steps forward again to sniff the foam as it pulls back out, tail wagging. His paws leave deep prints in the wet sand. Sound: small wave washing in, fizzing foam, owner laughing. 20-25s (Sandy rest): Sandy parking area by the van, cool morning light, ocean in the background. The dog lies on the van's side door step, sand stuck to his legs and belly, panting happily while the owner's hand brushes sand off his back. Sound: waves, wind, panting, owner says "sand everywhere".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Step to sand

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Sandy parking area beside a beach, cool overcast morning, grey ocean beyond low dunes. The sage green camper van with no writing or logos is parked facing the water. The dog hops out of the side door onto the sand and lifts his nose to the salty wind. Sound: waves crashing, seagulls, wind.

Clip 2 | 5-10s | Beach run

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
