Exploring an Old Ghost Town

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Wandering the dusty main street of an old ghost town: walking past weathered wooden buildings, sniffing an old wagon wheel, a shady rest by a stable porch, watching tumbleweed and a water stop.

TIMELINE

0-5s	Main street walk
5-10s	Wagon wheel sniff
10-15s	Porch shade
15-20s	Tumbleweed watch
20-25s	Water stop

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Main street walk): Wide dusty main street of an old ghost town, bright hazy afternoon, open and stable weathered wooden buildings with no signs on both sides. The dog walks on a leash down the middle of the dirt street, nose low, tail swaying. Sound: dry wind, footsteps in dirt, a wooden shutter creaking. 5-10s (Wagon wheel sniff): Edge of the dusty main street, bright daylight, an old grey wagon wheel leaning against a fence post. The dog sniffs carefully around the bottom of the wheel and the fence post, staying out on the open street. The owner keeps him off the porches and away from the old doorways. Sound: wind, sniffing, distant crow cawing. 10-15s (Porch shade): Shade beside a solid weathered wooden porch on the main street, bright afternoon sun all around. The dog lies down in the shade on the packed dirt next to the porch step, panting lightly, while the owner's boots stand next to him. Sound: panting, wind, owner says "we stay out here, buddy". 15-20s (Tumbleweed watch): Dusty main street of the ghost town, hazy daylight, empty buildings behind. A dry tumbleweed bounces slowly across the street in the wind. The dog stands on his leash, ears forward, watching it roll past, then sniffs where it went. Sound: wind gusting, tumbleweed scratching on dirt, owner laughing. 20-25s (Water stop): End of the ghost town's main street, the sage green camper van parked in the dusty lot, late afternoon sun. The owner's hand pours water from a bottle into a collapsible bowl and the dog drinks thirstily in the van's shade. Sound: water pouring, lapping, wind, a creak far away.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
