Van Cleaning Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Cleaning out the van at a campsite: shaking out his bed, him watching the vacuum from afar, sweeping fur, wiping paw prints and a final inspection of the fresh bed.

TIMELINE

0-5s	Bed shake-out
5-10s	Vacuum watch
10-15s	Sweeping fur
15-20s	Paw prints
20-25s	Final inspection

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Bed shake-out): Dirt campsite beside the sage green camper van, bright late morning sun. The owner's hands shake out the dog's grey foam bed cover, a cloud of white fur flying off in the breeze. The dog sits nearby on a leash, watching the fur float away. Sound: fabric flapping, wind, owner coughs and laughs. 5-10s (Vacuum watch): Campsite near the open van door, daylight. The owner's hand runs a small handheld vacuum along the van floor inside. The dog lies a few meters away on a mat, ears back slightly, watching the noisy vacuum with suspicion. The sage green camper van stands in the background with its side door open. Sound: vacuum whirring, a small huff from the dog. 10-15s (Sweeping fur): Inside the camper van floor, bright daylight through the open door. A small broom in the owner's hand sweeps a pile of white dog fur and dust toward the door. The dog pokes his head in from outside to sniff the fur pile. Sound: broom bristles scraping, sniffing, owner says "this is all you". 15-20s (Paw prints): Van side door step, sunny daylight. Muddy paw prints are visible on the step. The owner's hand wipes them away with a damp cloth while the dog stands just outside, head tilted, watching closely. He then reaches in and sniffs the clean step, his tail moving slowly side to side, and the owner laughs. Sound: cloth rubbing, birds, owner laughs "yes, these are yours". 20-25s (Final inspection): Inside the freshly cleaned sage green camper van, afternoon daylight. The dog steps in, sniffs the clean floor, walks to his freshly shaken bed, circles twice and lies down with a satisfied sigh. He then steps up onto the clean step, leaving one fresh dusty paw print right in the middle, and looks at the camera. Sound: van floor creaking, a big sigh, owner says "approved?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Bed shake-out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
