One Month on the Road

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Celebrating one month of van life: he unwraps a new toy, runs a field near camp, poses by the van, gets a special dog-safe treat and falls asleep with his new toy.

TIMELINE

0-5s	New toy
5-10s	Field run
10-15s	Van pose
15-20s	Special treat
20-25s	Toy nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (New toy): Inside the sage green camper van, morning daylight through the open side door. The owner's hands hold out a plush squeaky toy shaped like a bear. The dog grabs it gently, squeaks it twice and wags his whole back end. Sound: toy squeaking, tags jingling, owner says "happy one month, buddy". 5-10s (Field run): Wide open field near a forest campsite, bright morning sun, grass wet with dew. The dog runs through the field on a long line carrying the new bear toy in his mouth, ears flapping, tail high, circling back toward the camera. Sound: grass swishing, panting, owner laughing. 10-15s (Van pose): Campsite in front of the sage green camper van with no writing or logos, sunny late morning daylight. The dog sits on the grass in front of the open side door, the bear toy between his paws, looking at the camera with ears up. Sound: birds, owner says "one month, look here". 15-20s (Special treat): Van step at the campsite, bright daylight. The owner's hand offers a small frozen treat made of plain yogurt and blueberries. The dog licks it carefully, then takes a bite, his white muzzle getting a little messy. He then licks his lips and looks up for more, tail wagging. Sound: licking, crunching, owner laughs "party time". 20-25s (Toy nap): Inside the camper van, afternoon daylight through the windows, the side door open. The dog sleeps on his grey bed with his chin resting on the plush bear toy, paws twitching, a small piece of stuffing on the floor. The owner's hand gently pulls the blanket over his back. Sound: soft snoring, breeze outside, owner whispers "best month ever".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | New toy

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
