Black Sand Beach Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A grey morning on a black sand beach: hopping out of the van, walking the dark sand, sniffing driftwood, dodging a tiny wave at the calm water line and a paw rinse back at the van.

TIMELINE

0-5s	Hopping out
5-10s	Walking dark sand
10-15s	Sniffing driftwood
15-20s	Dodging small wave
20-25s	Paw rinse

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Hopping out): A sandy pull-off above a beach, cool grey morning light. The sliding side door of the sage green camper van with no logos is open and the dog hops down onto the coarse black sand, stretches his front legs and sniffs the salty air, while the owner's hand in a green rain jacket sleeve holds his leash. Sound: sliding door, soft thud on sand, distant waves, gulls. 5-10s (Walking dark sand): A wide beach of black volcanic sand under a flat overcast sky, calm low waves rolling in far away. The dog walks ahead on a long leash, his white coat standing out against the dark sand, leaving a line of paw prints. The owner's boots and the leash appear at the bottom of the frame. Sound: soft crunch of sand, steady waves, wind, panting. 10-15s (Sniffing driftwood): Further along the black sand beach, grey daylight, a long pale driftwood log lies half buried with a line of dried seaweed beside it. The dog sniffs along the whole log with great focus, tail slowly wagging, then lifts his head and looks back at the camera with sand on his nose. Sound: wind, waves, sniffing, owner says "find something good?". 15-20s (Dodging small wave): The wet edge of the black sand where calm shallow foam slides up the beach, overcast light. The dog stands on the long leash at the water line, a thin sheet of foam washes over his paws, and he hops back with a surprised little bounce, then sniffs the wet sand again. Sound: gentle wash of water, a splash, owner laughing. 20-25s (Paw rinse): Back at the sage green camper van on the sandy pull-off, grey morning light. The dog stands beside the open side door while the owner's hands pour clear water from a plastic jug over his front paws, black sand running off. He lifts one paw and then the other, patient but wiggly. Sound: water pouring, dripping, wind, owner says "other paw".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hopping out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. A sandy pull-off above a beach, cool grey morning light. FACEBOOK CAPTION

Black sand, white dog.
Guess who brought half the beach back into the van anyway?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
