Glacier Viewpoint Hike

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A cool cloudy hike to a glacier lookout: walking the rocky moraine trail, a drink at a small meltwater stream, sitting well back at the viewpoint, a water bowl break and a drizzly walk back.

TIMELINE

0-5s	Moraine trail
5-10s	Stream drink
10-15s	Viewpoint sit
15-20s	Water break
20-25s	Drizzly walk back

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Moraine trail): A wide gravel trail winding through grey boulders and low green shrubs on an old glacial moraine, cool cloudy morning light. The dog walks ahead on a loose leash, sniffing the rocks along the path, while snowy mountains sit under the clouds in the distance. The owner's boots step into the bottom of the frame. Sound: gravel crunching, cold wind, a stream somewhere. 5-10s (Stream drink): A shallow meltwater stream runs beside the trail over smooth grey stones, overcast daylight. A short sturdy wooden plank bridge crosses it. The dog stops at the low bank, leans down and laps the clear cold water, then lifts his head with water dripping from his chin and walks onto the bridge. Sound: bubbling water, loud lapping, hollow thuds of paws on planks. 10-15s (Viewpoint sit): A wide flat gravel viewing area with a sturdy wooden railing, cloudy cool daylight. The dog sits on his leash beside the owner's boots, well back from the railing, while far across the valley a huge blue-white glacier fills the gap between dark peaks. His ears twitch in the wind as he looks out. Sound: wind, distant cracking of ice, owner whispers "wow". 15-20s (Water break): Same gravel viewpoint, cold breeze, overcast light. The owner, a woman with a long auburn braid in a green rain jacket, crouches and her hand sets down a blue collapsible bowl, then pours water into it from a bottle. The dog drinks eagerly, splashing a little onto the grey gravel. Sound: water pouring, lapping, wind, a jacket rustling. 20-25s (Drizzly walk back): The wide moraine trail heading back down past grey boulders, a light drizzle starting and the light turning flat and dim. The dog stops in the middle of the path, does a big full body shake that sends droplets flying, then keeps trotting ahead on his leash with his tail up. Sound: light rain, gravel crunching, the flap of a shake, owner laughs.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Moraine trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. A wide gravel trail winding through grey boulders and low green shrubs on an old glacial moraine, cool cloudy morning light. The dog walks ahead on a loose leash, sniffing the rocks along the path, while snowy mountains sit under the clouds in the distance. The owner's boots step into the bottom of the frame. Sound: gravel crunching, cold wind, a stream somewhere.

Clip 2 | 5-10s | Stream drink

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
