Red Rock Arch Hike

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early morning desert hike to a huge red rock arch: sandy trail, sniffing juniper, sitting in the shade in front of the arch, a water break by a boulder and the walk back to the van.

TIMELINE

0-5s	Sandy trail
5-10s	Juniper sniff
10-15s	Arch photo sit
15-20s	Shade water break
20-25s	Back to van

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Sandy trail): A wide sandy trail through red rock desert in the cool early morning, soft pale light and long shadows. The dog trots ahead on a loose leash between low juniper bushes and orange sandstone boulders, paws leaving prints in the red sand. The owner's hiking boots appear at the bottom of the frame. Sound: soft footsteps in sand, birds, light breeze. 5-10s (Juniper sniff): Beside the sandy desert trail, cool morning light. The dog stops at a twisted juniper bush and sniffs the base of it slowly, tail swaying, then lifts his leg briefly and moves on. Red rock walls rise in the background under a clear pale blue sky. Sound: sniffing, a desert bird calling, owner says "come on". 10-15s (Arch photo sit): A wide flat sandy area in front of a huge natural red rock arch, morning light on the orange stone. The dog sits on his leash in the cool shade of a boulder, facing the camera, panting lightly, with the massive arch rising behind him against the blue sky. He blinks and looks to the side. Sound: quiet breeze, panting, owner says "sit, stay, good boy". 15-20s (Shade water break): In the shadow of a large red boulder near the arch, cool morning air. The owner's hand, in the sleeve of a green rain jacket tied around her waist, holds out a blue collapsible bowl of water. The dog drinks with loud laps, then lies down on the cool sand in the shade. Sound: lapping water, a happy sigh, birds. 20-25s (Back to van): The sandy trail heading back toward a dirt trailhead as the sun climbs and the red rocks turn brighter. The dog walks ahead on his leash with his tongue out, and the sage green camper van with no logos waits parked at the end of the trail beside a low wooden fence. Sound: footsteps, panting, a distant car on gravel.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sandy trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. FACEBOOK CAPTION

Out the door before sunrise to beat the heat.
Worth it for this face under that arch.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
