Running on the Salt Flats

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A bright cool morning on a huge white salt flat: hopping out of the van, sniffing the crusty salt, big happy loops on a long line, a shady rest by the van and a paw wipe.

TIMELINE

0-5s	Arriving

20-25s	Paw wipe

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Arriving): The edge of a vast flat white salt flat in bright cool morning light, brown mountains far away on the horizon. The sage green camper van with no logos is parked on the hard salt crust, its side door open. The dog jumps out, stands still for a moment and looks out at the endless white ground. Sound: wind, door sliding, crunch of salt underfoot. 5-10s (Sniffing salt): Close to the ground on the white salt flat, bright daylight. The crusty surface is broken into low ridged shapes. The dog lowers his nose and sniffs along one of the ridges, sneezes once, then licks his nose and looks up at the camera with his ears perked. Sound: crunching salt, a sneeze, owner laughs "too salty?". 10-15s (Running loops): Wide open white salt flat under a clear blue sky, morning light. The dog runs in a big happy loop around the owner at the end of a long orange training line, ears back and mouth open, salt crust crunching under his paws, with nothing but flat white ground and far mountains around him. Sound: fast paws crunching, panting, owner cheering "go go go". 15-20s (Shady rest): In the strip of shade beside the sage green camper van on the white salt flat, still cool morning air. The dog lies on a folded blanket, panting, while the owner's hand sets down a steel bowl of water. He lifts his head and drinks, then rests his chin on his paws. Sound: panting, lapping water, wind against the van. 20-25s (Paw wipe): Beside the open side door of the van, bright natural daylight on the salt. The owner, a woman with a long auburn braid, kneels and her hands wipe each of the dog's paws with a damp grey cloth to clean off the salt. He stands patiently, then licks her wrist. Sound: wind, cloth rubbing, owner says "salty paws, all clean".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
