Cactus Desert Morning Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A cool dawn walk among giant cactus: a stretch beside the van, a wide trail between saguaros, calmly watching a quail run by, a shady water break and a careful paw check.

TIMELINE

0-5s	Dawn stretch
5-10s	Saguaro trail
10-15s	Watching a quail
15-20s	Shady water break
20-25s	Paw check

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Dawn stretch): A dirt pull-off in the desert at dawn, cool soft pink and blue light, tall saguaro cacti standing on the hills. The sage green camper van with no logos is parked behind. The dog steps out onto the dirt and does a long front stretch, then a big yawn. Sound: morning birds, a long yawn, owner says "morning". 5-10s (Saguaro trail): A wide flat dirt trail through the desert, cool early morning light, tall saguaros and spiky shrubs well to both sides. The dog walks in the middle of the trail on a short leash, staying clear of the plants, and the owner's boots crunch along beside him. Sound: crunching dirt, cactus wren calls, panting. 10-15s (Watching a quail): Same wide desert trail, soft morning light. Far ahead, a small quail with a little head feather runs across the path into the brush. The dog stops, ears straight up, and watches it go, standing still on his leash without pulling. Sound: quick bird chirps, owner whispers "leave it, just look". 15-20s (Shady water break): In the dappled shade of a low mesquite tree beside the trail, cool morning air. The owner's hand sets down a blue collapsible bowl and pours water from a bottle. The dog drinks, then lies down on the cool dirt in the shade with his tongue out. Sound: pouring water, lapping, birds, a soft sigh. 20-25s (Paw check): Back beside the sage green camper van, the sun just over the hills and the light turning warmer. The owner, a woman with a long auburn braid, kneels and gently lifts each of the dog's paws to check his pads for spines. He stands patiently and sniffs her braid. Sound: birds, owner says "no spines, good".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Dawn stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. A dirt pull-off in the desert at dawn, cool soft pink and blue light, tall saguaro cacti standing on the hills. The sage green camper van with no logos is parked behind. The dog steps out onto the dirt and does a long front stretch, then a big yawn. Sound: morning birds, a long yawn, owner says "morning".

Clip 2 | 5-10s | Saguaro trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
