Mossy Rainforest Trail

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A rainy walk through a mossy rainforest: wet trail under dripping trees, a sniff of a mossy log, a boardwalk over the mud, a drink from a trickle and a towel off at the van.

TIMELINE

0-5s	Rainy trail
5-10s	Mossy log
10-15s	Boardwalk crossing
15-20s	Drinking from trickle
20-25s	Towel off

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Rainy trail): A muddy dirt trail under huge trees draped with thick green moss, light rain falling and dim grey daylight. The dog walks ahead on a loose leash, his white coat speckled with raindrops, while the owner's boots and the hem of her green rain jacket appear at the bottom of the frame. Sound: steady rain on leaves, dripping, squelching footsteps. 5-10s (Mossy log): Beside the trail, a fallen log completely covered in bright green moss and small ferns, soft rainy light. The dog sniffs along the moss slowly, presses his nose into it, then lifts his head with a bit of moss stuck to his muzzle. Sound: rain pattering, sniffing, owner laughs "you have moss on your nose". 10-15s (Boardwalk crossing): A wide wooden boardwalk crosses a muddy marshy patch of the rainforest, dim wet daylight, big leafy plants on both sides. The dog trots across the damp boards on his leash, nails clicking, and waits at the far end looking back at the camera. Sound: rain, hollow thuds on wet boards, dripping trees. 15-20s (Drinking from trickle): A small shallow trickle of clear water runs over rocks beside the trail, grey rainy light, moss everywhere. The dog steps to the edge, leans down and laps from the trickle, then lifts his head with water dripping off his chin. Sound: trickling water, lapping, rain. 20-25s (Towel off): Under the lifted rear door of the sage green camper van in a forest parking spot, rain pattering on the roof, dim daylight. The owner, a woman with a long auburn braid in a green rain jacket, rubs the dog down with a big grey towel while he leans into it. Sound: rain on the van roof, towel rubbing, owner says "soggy boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Rainy trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
