## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Low dry rocks): A rocky shore at low tide, overcast morning light, the calm sea far out and quiet. The dog steps carefully across low, flat, dry rocks on his leash, sniffing patches of seaweed, while the owner's boots follow in the bottom of the frame. Sound: gentle distant waves, gulls, paws on rock. 5-10s (Tide pool sniff): Beside a shallow tide pool among the low rocks, soft grey daylight. Green anemones and small snails sit in the clear water. The dog leans his nose close to the pool and sniffs the surface very carefully, ears forward, without stepping in. Sound: trickling water, sniffing, owner whispers "gentle". 10-15s (Tiny crab): Same tide pool, overcast light. A tiny crab scuttles sideways across a wet rock at the pool's edge. The dog tilts his head and watches it, then looks up at the camera when the owner says leave it, and stays still on his leash. Sound: water dripping, owner says "leave it", a soft whine. 15-20s (Sitting together): On a flat dry rock near the tide pools, cool overcast morning, calm grey sea in the background. The owner, a woman with a long auburn braid in a green rain jacket, crouches and the dog sits close beside her, her arm resting over his back as they look at the pools. Sound: calm waves, gulls, wind. 20-25s (Walk back): A sandy path leading up from the rocky shore to a small gravel parking area, overcast light. The dog walks ahead on his leash with damp paws, and the sage green camper van with no logos waits at the top of the path. Sound: footsteps on sand, distant waves, panting.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
