Rocky Coastline Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A breezy afternoon along a rocky coast: a wide path through coastal grass, crossing low flat dry rocks by the calm sea, watching gulls far away, a cuddle on a rock and the walk back to the van.

TIMELINE

0-5s	Coastal path
5-10s	Low rocks
10-15s	Watching gulls
15-20s	Rock cuddle
20-25s	Back to van

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Coastal path): A wide gravel path through windswept coastal grass, the calm blue-grey sea beyond, bright partly cloudy afternoon light. The dog walks ahead on a loose leash, fur ruffling in the breeze, and the owner's boots appear at the bottom of the frame. Sound: wind through grass, calm waves, gulls. 5-10s (Low rocks): Low, flat, dry grey rocks at the bottom of a gentle slope beside a calm sea, bright afternoon daylight. The dog steps from one flat rock to the next on his leash, sniffing the cracks, while small waves lap gently against the rocks well below them. Sound: gentle lapping water, paws on rock, wind. 10-15s (Watching gulls): On the low flat rocks, partly cloudy afternoon light. Far out on a separate rock, a few seagulls stand and preen. The dog stands still on his leash, ears up and nose working, watching them from far away without pulling. Sound: gulls calling, wind, owner says "just watching, huh". 15-20s (Rock cuddle): The owner, a woman with a long auburn braid in a green rain jacket, sits on a low flat dry rock with the calm sea behind, bright breezy afternoon light. The dog leans into her side and she wraps her arm around him, her braid blowing in the wind. Sound: wind, calm waves, a happy sigh. 20-25s (Back to van): The wide gravel coastal path leading back to a small lot, late afternoon light warming the grass. The dog trots ahead on his leash toward the sage green camper van with no logos parked beside a wooden post fence, then glances back once at the sea. Sound: crunching gravel, wind, distant waves.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Coastal path

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
