Autumn Aspen Forest

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A crisp sunny autumn afternoon in a golden aspen forest: walking the leafy trail, shuffling through crunchy leaves, snapping at tossed leaves, a sit among the white trunks and hopping into the van.

TIMELINE

0-5s	Leafy trail
5-10s	Crunchy leaves
10-15s	Leaf toss
15-20s	Photo sit
20-25s	Into the van

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Leafy trail): A dirt trail winding through white-trunked aspen trees with bright yellow leaves, crisp sunny autumn afternoon light. The dog walks ahead on a loose leash, yellow leaves drifting down around him, while the owner's boots step into the bottom of the frame. Sound: rustling leaves, birds, crunchy footsteps. 5-10s (Crunchy leaves): A thick carpet of fallen yellow aspen leaves on the forest floor, sunny afternoon light. The dog shuffles through the leaves with his nose down, sniffing, leaves crunching and scattering around his legs, tail wagging high. White aspen trunks rise all around him in the sunshine. Sound: loud leaf crunching, sniffing, owner laughs. 10-15s (Leaf toss): Among the aspens in crisp sunny light. The owner's hand, in a green rain jacket sleeve, tosses a handful of yellow leaves into the air above the dog. He jumps a little and snaps at the falling leaves, then spins once and looks for more. Sound: leaves fluttering, a playful bark, owner says "get them". 15-20s (Photo sit): Between two white aspen trunks covered in black marks, warm autumn afternoon light, yellow leaves all around. The dog sits on the leafy ground facing the camera, ears up, a single yellow leaf caught in his fur. He blinks slowly and his tail sweeps the leaves behind him. Sound: quiet breeze, leaves falling, owner says "stay, good boy". 20-25s (Into the van): A dirt forest road lined with yellow aspens, late afternoon light. The sage green camper van with no logos is parked with its sliding door open. The dog jumps up into the van onto a blanket and turns around to look back out. Sound: paws on the van floor, rustling leaves, door sliding.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leafy trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
