## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Arriving at hut): A small stone hut with a wooden door on a grassy mountain saddle, late afternoon light and rocky peaks around. The dog trots up the wide dirt path toward the hut on his leash, panting happily, with the owner's boots and backpack straps visible behind. Sound: wind, a cowbell far away, footsteps, panting. 5-10s (Setting up mat): Inside the hut, a simple room with wooden bunks and a plank floor, soft daylight from a small window. The owner's hands unroll a grey foam mat on the floor beside a bunk. The dog sniffs the mat, circles twice and lies down on it. Sound: foam unrolling, creaking floorboards, owner says "your bed". 10-15s (Dinner by window): Same wooden hut room, early evening light coming through the small window. The dog eats dry kibble from a steel bowl on the plank floor, crunching loudly, then licks the empty bowl so it slides a little across the boards. Sound: crunching kibble, bowl scraping, wind outside. 15-20s (Dusk on bench): A wooden bench outside the stone hut at dusk, pink and grey clouds over the peaks, fading natural light. The owner, a woman with a long auburn braid, sits wrapped in a blanket and the dog sits close beside her legs, both looking at the mountains. Sound: quiet wind, a soft sigh, owner says "so quiet up here". 20-25s (Misty morning): Inside the hut at dawn, cool grey light. The dog gets up from his foam mat, does a long stretch and a yawn, then walks to the wooden door as the owner's hand opens it to a bright misty mountain morning outside. Sound: creaking door, a big yawn, birds, wind.

### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
