Spotting Marmots in the High Meadow

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A sunny morning in a high alpine meadow: walking among wildflowers, freezing at a far away sound, a zoomed look at a marmot on a boulder, quietly watching together and moving on.

TIMELINE

0-5s	Wildflower trail
5-10s	Ears up
10-15s	Marmot far away
15-20s	Quiet watching
20-25s	Moving on

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Wildflower trail): A wide dirt trail through a high alpine meadow full of small purple and yellow wildflowers, bright sunny morning, rocky peaks behind. The dog walks ahead on a loose leash, sniffing the flowers at the trail edge, while the owner's boots step into the frame. Sound: breeze, insects buzzing, footsteps. 5-10s (Ears up): Same meadow trail, bright mountain daylight. The dog suddenly stops, ears straight up and head still, staring across the meadow toward a pile of grey boulders far away. His nose twitches and he stands perfectly still on his leash, one front paw slightly lifted, the wildflowers moving around his legs. Sound: a high whistle in the distance, breeze, owner whispers "what is it?". 10-15s (Marmot far away): Zoomed in and a little shaky, bright sunny daylight. Far across the meadow, a plump brown marmot sits up on top of a grey boulder, small in the frame, then drops down and waddles behind the rock. Grass and flowers sway in the foreground. Sound: faint whistle, wind, owner whispers "there he is". 15-20s (Quiet watching): Back on the trail, bright morning light. The dog sits beside the owner's boots, calm and focused, looking out across the meadow. The owner's hand, in a green rain jacket sleeve, rests on his back and gives him a small treat. Sound: breeze, soft crunch, owner whispers "just watching, good boy". 20-25s (Moving on): The wide meadow trail climbing gently toward the peaks, sunny daylight. The dog trots ahead on his leash, glancing back once toward the far boulders, then keeps going with his tail up through the wildflowers, the owner's boots following close behind on the dirt path. Sound: footsteps, a faint whistle far away, insects.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Wildflower trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

He heard the marmot before I saw it.
Watched from far away like a total gentleman.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
