Frozen Waterfall Winter Hike

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An overcast winter hike to a frozen waterfall: bounding through the snowy forest, crossing a footbridge over a frozen creek, sitting well back from the ice, a snow roll and a snowball brush off at the van.

TIMELINE

0-5s	Snowy trail
5-10s	Frozen creek bridge
10-15s	Frozen waterfall
15-20s	Snow roll
20-25s	Snowball brush off

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Snowy trail): A wide packed snow trail through a pine forest, flat grey winter daylight, snow on the branches. The dog bounds ahead on his leash, kicking up little puffs of snow, his white coat blending into the scene, while the owner's boots crunch behind. Sound: crunching snow, panting, quiet forest. 5-10s (Frozen creek bridge): A sturdy wooden footbridge with railings over a frozen, snow-covered creek, overcast winter light. The dog trots across the snowy planks on his leash and stops on the far side to sniff the snow piled against a post, then looks back at the camera with snow on his nose. Sound: hollow paw thuds, crunching snow, a crow far away. 10-15s (Frozen waterfall): A wide snowy flat viewing area at the bottom of a rock cliff, grey winter daylight. A tall frozen waterfall hangs down the cliff as thick blue-white columns of ice. The dog sits on his leash well back from the ice, beside the owner's boots, looking up at it. Sound: quiet, a faint trickle under the ice, owner whispers "wow". 15-20s (Snow roll): Fresh deep snow beside the trail, overcast winter light. The dog flops down and rolls onto his back, wiggling and kicking his legs in the air, snow covering his face, then pops up and shakes hard, snow flying off his coat while the owner's boots stand nearby on the packed trail. Sound: snow crunching, happy grunts, owner laughs "you goof". 20-25s (Snowball brush off): Beside the sage green camper van in a snowy parking area, grey winter afternoon light. The owner, a woman with a long auburn braid in a green rain jacket, uses her gloved hands to brush small balls of snow off the fur on the dog's legs while he stands patiently. Sound: brushing, crunching snow, owner says "snowball legs again".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Snowy trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

The waterfall froze solid and so did my fingers.
He could have stayed out all day.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
