Morning Trail Run Through the Pines

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An easy morning trail run through a pine forest: lacing up at the van, the first jog, hopping a fallen log, a drink at a little creek and a cool-down in the shade.

TIMELINE

0-5s	Lacing up
5-10s	Easy jog
10-15s	Log hop
15-20s	Creek drink
20-25s	Cool-down rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Lacing up): Forest pullout beside the sage green camper van with no writing, cool overcast morning, pine needles on packed dirt. The owner sits on the van's side step tying her running shoes, her long auburn braid falling over one shoulder. The dog stands in front of her in his harness, tail wagging fast, stepping in place with excitement. Sound: birds, shoelaces pulled tight, impatient whine, owner says "two seconds". 5-10s (Easy jog): Wide soft dirt trail through tall straight pines, cool morning daylight between the trunks, ferns along the sides. The camera bobs as the owner jogs. The dog trots beside her on a short hands-free leash clipped to her waist belt, mouth open, ears relaxed, matching her pace on the needle-covered path. Sound: light footsteps, rhythmic panting, harness buckle jingling. 10-15s (Log hop): Same wide pine trail, overcast daylight. A low fallen log lies across the path. The dog sees it, picks up speed and hops over it smoothly, front paws first, then back paws, landing softly on the dirt and continuing to trot without missing a step. The owner's legs step over the log behind him. Sound: paws thudding on dirt, owner breathing hard, a quick "nice jump". 15-20s (Creek drink): Shallow trickling creek crossing the wide trail, cool morning light under the pines, smooth stones and green moss. The run pauses. The dog wades in up to his ankles and drinks noisily from the clear moving water, then lifts his dripping chin and looks back at the camera, panting. Sound: trickling water, lapping, heavy breathing from both of them. 20-25s (Cool-down rest): Back at the forest pullout beside the sage green van, overcast late morning. The dog lies on a grey foam mat in the shade of the open side door, legs stretched out, while the owner's hand pours water into his steel bowl. He drinks lying down, then rolls onto his side with a long happy groan. Sound: water pouring, lapping, a long groan, distant crows.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lacing up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Forest pullout beside the sage green camper van with no writing, cool overcast morning, pine needles on packed dirt. The owner sits on the van's side step tying her running shoes, her long auburn braid falling over one shoulder. The dog stands in front of her in his harness, tail wagging fast, stepping in place with excitement. Sound: birds, shoelaces pulled tight, impatient whine, owner says "two seconds".

Clip 2 | 5-10s | Easy jog

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
