Sailing Day on Our Little Boat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm-water sailing day on a small lake: life vest on at the dock, stepping aboard, a gentle breeze, a nap in the cockpit and hopping back onto the dock.

TIMELINE

0-5s	Life vest on
5-10s	Stepping aboard
10-15s	Gentle breeze
15-20s	Cockpit nap
20-25s	Back on the dock

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Life vest on): Weathered wooden dock on a calm lake, sunny morning, small boats tied up and pine trees on the far shore. The owner's hands buckle a bright red dog life vest with a grab handle around the dog's chest while he stands patiently, sniffing the planks. She tugs the straps to check the fit and pats his back. Sound: buckles clicking, water lapping on the posts, owner says "safety first". 5-10s (Stepping aboard): Same wooden dock, calm flat water, sunny morning. A small white sailboat with a plain white sail is tied alongside. The owner holds the handle on his red life vest as the dog steps carefully from the dock onto the low cockpit seat and then down onto the floor, where he settles and looks around. Sound: boat creaking, paws on fiberglass, rope rubbing on the cleat. 10-15s (Gentle breeze): Out on the calm lake, bright late morning, small gentle ripples, green hills around. The plain white sail is softly filled. The dog sits on the cockpit floor in his red life vest, nose raised and twitching in the light breeze, ears flapping a little, while the owner's hand rests on the wooden tiller nearby. Sound: soft wind in the sail, water trickling along the hull, a gull far off. 15-20s (Cockpit nap): Same small sailboat on calm water, early afternoon sun, sail loose and flapping gently. The dog lies stretched out on a striped beach towel on the cockpit floor, still wearing his red life vest, eyes half closed. The owner's bare foot rests next to his paw and her hand strokes his white head. Sound: water lapping, sail fluttering, a deep sleepy sigh. 20-25s (Back on the dock): Wooden dock again, late afternoon sun, calm water. The sailboat bumps gently against the dock fenders. The dog hops up onto the planks with the owner holding his vest handle, then shakes his whole body, ears flapping, and trots a few steps toward shore with his tail wagging. Sound: hull bumping softly, paws on wood, owner laughs "captain's back on land".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Life vest on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Weathered wooden dock on a calm lake, sunny morning, small boats tied up and pine trees on the far shore. The owner's hands buckle a bright red dog life vest with a grab handle around the dog's chest while he stands patiently, sniffing the planks. She tugs the straps to check the fit and pats his back. Sound: buckles clicking, water lapping on the posts, owner says "safety first".

Clip 2 | 5-10s | Stepping aboard

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
