We Went Trekking With Llamas

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A guided farm trek with llamas where the dog stays calm on leash at a respectful distance: meeting the herd, walking the track, a meadow stop, a stream crossing and the end of the trek.

TIMELINE

0-5s	Meeting the herd
5-10s	On the track
10-15s	Meadow stop
15-20s	Stream crossing
20-25s	End of the trek

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Meeting the herd): Small farm yard with a wooden fence and a red barn, cool cloudy morning, muddy grass. Two brown and white llamas stand calmly with a guide in a blue fleece several meters away. The dog sits on a short leash beside the owner's boots, ears up, watching them quietly with his tail still. Sound: llamas humming softly, chickens far off, owner says "nice and easy". 5-10s (On the track): Wide grassy farm track between stone walls, cloudy morning light, rolling green hills. The guide in the blue fleece leads the two llamas ahead. The dog walks on a loose leash at the owner's side, keeping a good distance behind them, sniffing the grass verge and glancing up at the llamas now and then. Sound: hooves on grass, footsteps, wind over the hills. 10-15s (Meadow stop): Open hillside meadow with yellow wildflowers, sun breaking through clouds, late morning. Far across the meadow the llamas graze with the guide beside them. The dog lies in the long grass on his leash next to the owner's backpack, chin on his paws, watching the distant llamas calmly. Sound: bees, grass rustling, a llama hum far away. 15-20s (Stream crossing): Shallow wide stream crossing the farm track, bright midday light, flat pebbles and clear water only ankle deep. The dog walks through the water on his leash beside the owner's wet boots, stopping halfway to take a quick drink, then trotting out the other side and shaking his legs. Sound: splashing, trickling water, owner says "good, keep going". 20-25s (End of the trek): Back at the farm yard with the wooden fence, early afternoon cloudy light. The llamas stand inside a paddock in the background. The dog drinks from a metal water bowl by the fence post, then sits and leans against the owner's leg as her hand scratches behind his ears. Sound: lapping water, gate latch clinking, llamas humming.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Meeting the herd

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

He was very polite. The llamas were not impressed.
What's the strangest animal your dog has met?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
