Cross-Country Skiing With My Shadow

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A winter day on a groomed flat ski trail: clicking into skis by the van, gliding through the birches, a roll in fresh snow, a snack break and drying paws at the van.

TIMELINE

0-5s	Clicking in
5-10s	Gliding along
10-15s	Snow roll
15-20s	Snack break
20-25s	Drying paws

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Clicking in): Snowy parking area at the edge of a forest, bright overcast winter light, the sage green camper van with no writing dusted with snow. The owner's boots click into narrow skis. The dog stands next to her in his harness on the packed snow, bouncing his front paws and wagging, breath steaming. Sound: ski bindings clicking, crunchy snow, owner laughs "okay, okay, we're going". 5-10s (Gliding along): Groomed flat ski trail through a white birch forest, soft grey winter daylight, snow-covered branches. The owner's ski tips slide forward at the bottom of the frame. The dog runs beside her on a waist leash at an easy trot, paws kicking up little puffs of snow along the trail's flat edge. Sound: skis swishing, poles crunching, steady panting. 10-15s (Snow roll): Same flat groomed trail, bright overcast light, deep fresh snow piled at the side. During a stop the dog flops into the soft snow at the edge and rolls onto his back, wiggling with all four legs in the air, then jumps up with snow stuck all over his white face and sneezes. Sound: snow crunching, a sneeze, owner laughing hard. 15-20s (Snack break): Trailside wooden bench half buried in snow, cold midday light, birches all around. The owner's gloved hand holds out a dog biscuit and the dog takes it gently and crunches. Her other hand holds a dented steel thermos that steams. He sits in the snow beside her skis, licking his lips. Sound: crunching biscuit, thermos lid unscrewing, wind in the birches. 20-25s (Drying paws): Back at the snowy parking area, afternoon grey light, the sage green van's side door open. The dog stands on a rubber mat at the doorway while the owner's hands rub each of his paws with an old blue towel, picking out snowballs between his toes. He licks her wrist. Sound: towel rubbing, snow falling off, owner says "frozen toes".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Clicking in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Snowy parking area at the edge of a forest, bright overcast winter light, the sage green camper van with no writing dusted with snow. The owner's boots click into narrow skis. The dog stands next to her in his harness on the packed snow, bouncing his front paws and wagging, breath steaming. Sound: ski bindings clicking, crunchy snow, owner laughs "okay, okay, we're going".

Clip 2 | 5-10s | Gliding along

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
