Snowed In at the Winter Cabin

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A snowstorm day at a rented winter cabin: watching the snow pile up, a quick bathroom trip outside, toweling snowy paws, a nap by the guarded woodstove and an evening snuggle.

TIMELINE

0-5s	Window watch
5-10s	Quick trip out
10-15s	Snowy paws
15-20s	Stove nap
20-25s	Evening snuggle

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Window watch): Inside a small wooden cabin, grey snowy afternoon, heavy snow falling past a wide window with pine trees barely visible outside. The dog stands with his front paws on the low wooden window seat, nose close to the glass, ears up, head turning as he follows the swirling flakes. Sound: wind howling outside, wood creaking, soft whine. 5-10s (Quick trip out): Cabin front porch with snow drifting onto the boards, grey blowing snow, porch railing half buried. The owner holds the door open in a green rain jacket. The dog bounds down the steps into snow up to his chest, sniffs, does his business by a small tree, then plows back toward the door. Sound: wind gusts, deep snow crunching, owner shouts "quick, quick, come on". 10-15s (Snowy paws): Cabin entryway with a brown rubber doormat and boots by the wall, warm lamp light. The dog stands on the mat covered in snow clumps while the owner's hands rub his legs and paws with a striped towel. Melting snow drips onto the mat and he shakes his head, ears flapping. Sound: towel rubbing, dripping, a big head shake. 15-20s (Stove nap): Cabin living room, dim snowy daylight through the window and a table lamp on. A black woodstove sits behind a metal safety guard on the far side of the room. The dog lies on a thick braided rug well away from it, curled up with his nose tucked into his tail, fur still slightly damp. Sound: faint crackle from the stove, wind outside, slow breathing. 20-25s (Evening snuggle): Same cabin at night, ordinary warm lamp light, dark window with snow falling past a porch light outside. The dog lies on a plaid couch with his head across the owner's legs under a grey wool blanket. Her hand strokes his ear and he lets out a long sigh and closes his eyes. Sound: wind outside, blanket rustling, a long sigh, owner whispers "best storm ever".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Window watch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Inside a small wooden cabin, grey snowy afternoon, heavy snow falling past a wide window with pine trees barely visible outside. The dog stands with his front paws on the low wooden window seat, nose close to the glass, ears up, head turning as he follows the swirling flakes. Sound: wind howling outside, wood creaking, soft whine.

Clip 2 | 5-10s | Quick trip out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
