He Waited Like a Pro at the Climbing Crag

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A climbing day where the dog relaxes on a mat with a friend well back from the rock: the hike in, setting up base camp, watching her climb from afar, a chew with the friend and a reunion.

TIMELINE

0-5s	Hike in
5-10s	Base camp setup
10-15s	Watching her climb
15-20s	Chew time
20-25s	Happy reunion

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Hike in): Wide forest path leading toward a grey rock wall, cool sunny morning, ferns and big boulders. The owner, with her long auburn braid and a climbing pack, walks ahead with the dog on a leash. A friend in an orange beanie follows. The dog trots happily, sniffing the ferns along the path. Sound: footsteps on dirt, climbing gear clinking in the pack, birds. 5-10s (Base camp setup): Flat grassy clearing well back from the base of the rock wall, bright morning light through the trees. The friend in the orange beanie unrolls a green foam mat on the grass. The dog steps onto it, turns in a circle and lies down, and the friend clips his leash to a backpack strap. Sound: mat unrolling, rustling grass, friend says "this is your spot". 10-15s (Watching her climb): Same clearing, sunny late morning. The friend films from the mat. The dog lies in front of the camera with his head up, ears pointed toward the rock wall far away, where the owner, small in the distance in a helmet and green jacket, climbs slowly on a rope. The dog watches calmly. Sound: distant voices, rope clicking far away, wind in the trees. 15-20s (Chew time): Same flat clearing, midday dappled sunlight. The friend's hand in a fingerless glove offers the dog a long chew stick from a pouch. He takes it gently and settles down on the green mat, holding the chew between his front paws and gnawing it with his head tilted sideways. Sound: chewing, leaves rustling, friend says "good waiting". 20-25s (Happy reunion): Same clearing, early afternoon sun. The owner walks across the grass toward the mat, still wearing her helmet, auburn braid hanging down her back. The dog jumps up, tail wagging his whole back end, and leans hard against her legs as she crouches and hugs his neck. Sound: happy whines, tail thumping a bag, owner says "I missed you too".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hike in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Wide forest path leading toward a grey rock wall, cool sunny morning, ferns and big boulders. The owner, with her long auburn braid and a climbing pack, walks ahead with the dog on a leash. A friend in an orange beanie follows. The dog trots happily, sniffing the ferns along the path. Sound: footsteps on dirt, climbing gear clinking in the pack, birds.

Clip 2 | 5-10s | Base camp setup

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
