We Built a Little Shelter in the Woods

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A bushcraft afternoon building a simple lean-to shelter: gathering branches, leaning the poles, piling on leaves, the dog testing it first and sitting out a light rain shower inside.

TIMELINE

0-5s	Gathering branches
5-10s	Leaning poles
10-15s	Piling leaves
15-20s	Testing it
20-25s	Rain shower

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Gathering branches): Mixed forest floor with fallen branches and brown leaves, cloudy afternoon light. The owner's hands in work gloves pick up a long dry branch. The dog trots beside her carrying a small stick of his own in his mouth, proud and bouncy, tail held high. Sound: twigs snapping, leaves crunching, owner laughs "thanks for the help". 5-10s (Leaning poles): Large fallen log lying on the forest floor, cloudy afternoon daylight, moss and ferns. The owner's gloved hands lean several long branches at an angle against the log, forming a simple sloped frame. The dog sniffs along the bottom of the branches and noses one into place. Sound: wood knocking on wood, sniffing, wind in the treetops. 10-15s (Piling leaves): Same fallen log with the branch frame, cloudy afternoon. The owner's arms drop a big armful of brown leaves over the sloped branches. The dog lies on the forest floor a few steps away, chin on his paws, watching, and sneezes when a few leaves land on his nose. Sound: leaves rustling and falling, a sneeze, owner giggles. 15-20s (Testing it): Finished lean-to shelter of branches and leaves against the fallen log, dim cloudy afternoon light in the forest. The dog walks to the open side, ducks his head and crawls inside, turns once and lies down on the dry leaves, looking out at the camera with his ears up. Sound: leaves crackling, a satisfied huff, owner says "you like it?". 20-25s (Rain shower): Inside the leaf lean-to looking out, grey afternoon, a light rain shower falling on the ferns outside. The owner's knees in green rain pants are next to the dog, who lies curled on the dry leaves, watching the drops fall and twitching an ear when one drips near him. Sound: rain pattering on leaves, slow breathing, owner whispers "cozy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Gathering branches

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Mixed forest floor with fallen branches and brown leaves, cloudy afternoon light. The owner's hands in work gloves pick up a long dry branch. The dog trots beside her carrying a small stick of his own in his mouth, proud and bouncy, tail held high. Sound: twigs snapping, leaves crunching, owner laughs "thanks for the help".

Clip 2 | 5-10s | Leaning poles

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
