Campfire Cooking Night at Our Site

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An evening of campfire cooking while the dog relaxes on his blanket far from the fire: lighting the fire, a sizzling pan, his own dinner, her dinner and a sleepy end to the night.

TIMELINE

0-5s	Lighting the fire
5-10s	Sizzling pan
10-15s	His own dinner
15-20s	Her dinner
20-25s	Sleepy night

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Lighting the fire): Forest campsite at dusk with a round stone fire ring, fading blue evening light, the sage green camper van with no writing parked behind. The owner's hands set small sticks in the ring. Far back near the van the dog lies on a blue blanket, clipped to a tie-out, watching calmly. Sound: sticks clattering, a match striking, crickets starting. 5-10s (Sizzling pan): Same campsite, dusk turning dark, small orange flames in the stone ring. A black cast iron pan of sliced peppers and potatoes sizzles on a metal grate. In the background, well away from the fire, the dog lies on his blue blanket with his head up, nose twitching at the smell. Sound: loud sizzling, fire crackling, owner says "smells good, right?". 10-15s (His own dinner): Blue blanket next to the van, dim evening light and a lantern hanging from the open side door. The owner's hand sets down a steel bowl of kibble. The dog stands up and eats eagerly, crunching loudly, tail wagging, while the fire burns far behind him out of focus. Sound: kibble crunching, bowl sliding on the blanket, owner says "this one's yours". 15-20s (Her dinner): Camp chair beside the van, dark evening, lantern light. The owner's hands hold a tin plate of the peppers and potatoes in her lap. The dog lies on his blanket next to her chair, licking his lips and staring hopefully at the plate, but she keeps eating and scratches his head instead. Sound: fork scraping tin, crickets, owner laughs "nope, you had yours". 20-25s (Sleepy night): Same campsite late at night, dark, a dim lantern and orange embers low in the stone ring far away. The dog sleeps stretched out on his blue blanket by the van with one paw over his nose. The owner's hand pulls a corner of the blanket over his back. Sound: soft embers popping far off, crickets, a sleepy groan.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
