No Tent, Just Us and the Stars

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A night sleeping out under the open sky in a meadow by the van: rolling out the pads, his fleece bed, stargazing, a night noise and a dewy sunrise wake-up.

TIMELINE

0-5s	Rolling out pads
5-10s	His fleece bed
10-15s	Stargazing together
15-20s	Night noise
20-25s	Dewy sunrise

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Rolling out pads): Open grassy meadow beside the sage green camper van with no writing, late evening, sky fading pink and orange above low hills. The owner's hands unroll a blue sleeping pad on a tarp. The dog immediately walks onto the pad, sniffs it and sits right in the middle. Sound: pad unrolling, crickets, owner laughs "that's mine". 5-10s (His fleece bed): Same meadow, dusk, deep blue sky with the first stars. The owner's hands spread a thick grey fleece blanket on the tarp next to her sleeping bag. The dog steps off her pad onto the fleece, turns in two circles and lies down with a heavy flop and a sigh. Sound: fleece rustling, a heavy flop, crickets. 10-15s (Stargazing together): Same meadow at night, dark sky full of stars and a faint milky band, only a dim red headlamp lighting the scene. The camera points up at the stars, then tilts down to the dog lying on his fleece beside the sleeping bag, head up, ears moving as he listens to the night. Sound: crickets, a far-off cow, owner whispers "look at that sky". 15-20s (Night noise): Same dark meadow, red headlamp light on low. The dog lies on the grey fleece. A distant owl hoots from the trees and his head lifts, ears standing tall, staring into the dark. After a moment he lowers his chin back onto his paws and lets out a small huff. Sound: owl hooting far away, crickets, a soft huff. 20-25s (Dewy sunrise): Same meadow at sunrise, pale pink sky, dew on the grass and on the sleeping bag. The camera is the owner's point of view lying in her bag. The dog stands over her, stretches, then licks her hand poking out of the sleeping bag, his white fur damp at the tips. Sound: morning birds, licking, owner laughs sleepily "good morning to you too".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Rolling out pads

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Open grassy meadow beside the sage green camper van with no writing, late evening, sky fading pink and orange above low hills. The owner's hands unroll a blue sleeping pad on a tarp. The dog immediately walks onto the pad, sniffs it and sits right in the middle. Sound: pad unrolling, crickets, owner laughs "that's mine".

Clip 2 | 5-10s | His fleece bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Same meadow, dusk, deep blue sky with the first stars. The owner's hands spread a thick grey fleece blanket on the tarp next to her sleeping bag. The dog steps off her pad onto the fleece, turns in two circles and lies down with a heavy flop and a sigh. Sound: fleece rustling, a heavy flop, crickets.

Clip 3 | 10-15s | Stargazing together

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
