Our First Overnight Backpacking Trip

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A two-day backpacking trip: loading up at the trailhead, a long valley walk, pitching the tent by a lake, dinner in the tent porch and a morning face in the tent door.

TIMELINE

0-5s	Loading up
5-10s	Valley trail
10-15s	Pitching the tent
15-20s	Tent porch dinner
20-25s	Tent door morning

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Loading up): Dirt trailhead beside the sage green camper van with no writing, bright morning light, mountains behind. The owner swings a large grey backpack onto her shoulders and buckles the hip belt. The dog stands beside her in his harness, wagging, then trots to the start of the wide trail and looks back. Sound: buckles clicking, gravel crunching, owner says "two days, buddy". 5-10s (Valley trail): Wide dirt trail running through a green valley with a stream beside it, sunny afternoon, pine-covered slopes on both sides. The camera follows the dog walking ahead on a loose leash, steady and happy, sniffing a wildflower now and then, the trail stretching far ahead between the meadows. Sound: footsteps, stream babbling, steady panting. 10-15s (Pitching the tent): Flat grassy clearing beside a calm mountain lake, late afternoon light, rocks along the shore. A small green dome tent is half up. The owner's hands push a pole through a sleeve. The dog sniffs the tent fabric curiously, then walks around the whole tent inspecting every corner. Sound: tent poles clicking, fabric rustling, lake lapping softly. 15-20s (Tent porch dinner): Front vestibule of the small green tent, evening light fading, lake in the background. The dog lies half inside the tent door eating kibble from a collapsible blue bowl placed on the ground. The owner's socked feet are visible next to him on her sleeping pad. Sound: crunching kibble, zipper jingling, evening birds. 20-25s (Tent door morning): Inside the small green tent at sunrise, soft green-tinted light through the fabric. The door is unzipped and the dog's white face pokes in from outside, ears up, nose sniffing toward the camera. Behind him the calm lake lies under morning mist. Sound: zipper, sniffing, birdsong, owner laughs "you're up early".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Loading up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Dirt trailhead beside the sage green camper van with no writing, bright morning light, mountains behind. The owner swings a large grey backpack onto her shoulders and buckles the hip belt. The dog stands beside her in his harness, wagging, then trots to the start of the wide trail and looks back. Sound: buckles clicking, gravel crunching, owner says "two days, buddy".

Clip 2 | 5-10s | Valley trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
