Up Before the Sun to Watch Wildlife

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early morning wildlife watch from far away: coffee at the van before dawn, a quiet misty walk, deer in the distance, binoculars and breakfast at sunrise.

TIMELINE

0-5s	Pre-dawn coffee
5-10s	Misty walk
10-15s	Deer far away
15-20s	Binocular check
20-25s	Sunrise breakfast

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Pre-dawn coffee): Edge of a wide meadow before dawn, deep blue dim light, the sage green camper van with no writing parked with its side door open and a small lantern inside. The owner pours coffee from a thermos into a tin cup. The dog sits on a blanket in the doorway, yawning widely. Sound: coffee pouring, a big squeaky yawn, quiet birds starting. 5-10s (Misty walk): Narrow mown path through a wide misty meadow, grey-blue early dawn light, wet grass. The dog walks beside the owner's boots on a short leash, nose low in the dew, ears swiveling at small sounds. Mist hangs low over the meadow ahead, dark trees on the far side. Sound: wet grass swishing, footsteps, owner whispers "quiet now". 10-15s (Deer far away): Same misty meadow at first light, pale pink sky above the tree line. Far across the field two deer graze at the edge of the woods, small in the frame. The dog sits on his short leash beside the owner, ears forward, staring at them calmly, perfectly still. Sound: near silence, a bird calling, owner whispers "good boy, stay". 15-20s (Binocular check): Same meadow, sunrise light starting to touch the grass. The owner's hands lift black binoculars toward the distant tree line. The dog lies down in the wet grass at her feet on his short leash, chin on his paws, eyes still on the far edge of the field. Sound: binocular strap rustling, birds singing, a soft sigh. 20-25s (Sunrise breakfast): Back at the sage green van at the meadow edge, bright early sunrise, dew sparkling on the grass. The dog eats kibble from his steel bowl on the ground by the open side door. The owner's tin cup of coffee sits on the step next to him, steam rising. Sound: crunching kibble, birds in full chorus, owner says "worth getting up for".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
