We Spotted an Eagle by the River

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A cold riverside walk that turns into eagle watching from far away: walking the gravel path, spotting the bird, watching it take off, a bench break and a drizzly walk back to the van.

TIMELINE

0-5s	Riverside walk
5-10s	Something up high
10-15s	Eagle takes off
15-20s	Bench break
20-25s	Drizzly walk back

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Riverside walk): Wide gravel path along a broad grey river, cold overcast morning, bare trees on the far bank. The dog walks ahead on a loose leash, sniffing the frosty grass verge, breath steaming. The owner's green rain jacket sleeve is visible holding the leash. Sound: gravel crunching, river rushing gently, crows. 5-10s (Something up high): Same gravel path, cold grey daylight. The dog stops and lifts his head, ears up, staring across the river. Far away on the opposite bank a tall dead tree stands with a large dark bird with a white head perched near the top, small in the frame. Sound: river flowing, owner whispers "whoa, is that an eagle?". 10-15s (Eagle takes off): Same riverside path, overcast morning. The dog sits beside the owner's boots on the gravel, perfectly calm, watching. Across the wide river the distant eagle spreads its wings, drops from the dead tree and flies low and steady over the far side of the water. Sound: river flowing, owner gasps quietly, a distant high call. 15-20s (Bench break): Wooden bench beside the gravel path facing the river, cold cloudy light. The owner sits with her hands in her jacket pockets. The dog sits next to the bench leaning against her knee, still looking out at the river, and her gloved hand rests on his back. Sound: wind over the water, a duck quacking, quiet breathing. 20-25s (Drizzly walk back): Gravel parking area by the river, light drizzle starting, grey afternoon. The sage green camper van with no writing waits ahead. The dog trots toward it, stops beside the side door and shakes the drizzle off his white coat, then looks back at the camera, tail wagging. Sound: drizzle pattering on gravel, a shake, van door sliding open.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Riverside walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Wide gravel path along a broad grey river, cold overcast morning, bare trees on the far bank. The dog walks ahead on a loose leash, sniffing the frosty grass verge, breath steaming. The owner's green rain jacket sleeve is visible holding the leash. Sound: gravel crunching, river rushing gently, crows.

Clip 2 | 5-10s | Something up high

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
