Fossil Hunting at the Creek

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An afternoon searching a shallow creek for fossils: scanning the shale, turning over a stone with a shell print, the dog digging his own spot, a paddle in the shallows and showing off the find.

TIMELINE

0-5s	Creek bed
5-10s	Shell print
10-15s	His own dig
15-20s	Paddle in the shallows
20-25s	Showing the find

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Creek bed): Shallow creek bed with layered grey shale banks, warm sunny afternoon, trickles of water between flat stones. The dog walks along the creek bed sniffing the stones, his paws splashing in the thin water, while the owner's hiking boots step carefully behind him on the flat rocks. Sound: trickling water, stones clinking, birds in the trees. 5-10s (Shell print): Same creek bed, bright afternoon light. The owner's hand turns over a flat grey stone and holds it up, showing a small ribbed shell imprint pressed into its surface. The dog pushes his nose into frame and sniffs the stone curiously, whiskers twitching. Sound: stone scraping, sniffing, owner says "look at this one". 10-15s (His own dig): Gravel bank at the edge of the creek, warm sunlight. The dog digs with his front paws in the loose gravel beside the owner, sending small stones flying behind him, then stops, sticks his nose deep into the little hole, snorts and sneezes loudly. Sound: gravel scattering, a sneeze, owner laughing "find anything?". 15-20s (Paddle in the shallows): Wider shallow pool in the creek, sunny afternoon, clear water only ankle deep over flat grey shale. The dog stands in the water drinking, then walks slowly through it, pawing at a ripple, his white legs wet and sandy, then glances back to check on the owner. Sound: splashing, lapping, cicadas buzzing. 20-25s (Showing the find): Sitting on a flat dry rock beside the creek, late afternoon warm light. The owner's open palm holds two small grey fossil stones. The dog sits in front of her and sniffs her palm, then licks her fingers and wags his tail, wet paws leaving prints on the rock. Sound: water trickling, licking, owner says "we're rich, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Creek bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Shallow creek bed with layered grey shale banks, warm sunny afternoon, trickles of water between flat stones. The dog walks along the creek bed sniffing the stones, his paws splashing in the thin water, while the owner's hiking boots step carefully behind him on the flat rocks. Sound: trickling water, stones clinking, birds in the trees.

Clip 2 | 5-10s | Shell print

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
