Carrying the Canoe Between Lakes

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A canoe trip with a portage between two calm lakes: landing the canoe, a friend carrying it on the trail, a boardwalk crossing, reaching the next lake and paddling off together.

TIMELINE

0-5s	Landing the canoe
5-10s	Portage trail
10-15s	Boardwalk crossing
15-20s	Next lake
20-25s	Paddling off

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Landing the canoe): Rocky shore of a calm lake, cool sunny morning, dark spruce trees behind. A red canoe glides gently onto the shore. The dog, wearing a yellow life vest with a grab handle, steps out onto the flat rocks as the owner holds the handle, then shakes his head and sniffs the shoreline. Sound: canoe scraping rock, water lapping, owner says "careful, okay". 5-10s (Portage trail): Wide dirt portage trail through a spruce forest, sunny morning, roots and pine needles. Ahead, a friend in a grey cap walks carrying the red canoe upside down over his shoulders. The dog trots between the camera and the friend in his yellow life vest, tail up. Sound: footsteps, canoe thumping lightly, birds, friend grunts "almost halfway". 10-15s (Boardwalk crossing): Narrow wooden boardwalk crossing a mossy bog, bright late morning light, low shrubs on both sides. The dog in his yellow life vest walks along the planks ahead of the camera, paws thudding on the wood, stopping once to sniff the moss beside the boardwalk. Sound: paws on wooden planks, frogs croaking, owner says "keep going". 15-20s (Next lake): Sandy shore of a second calm lake, sunny midday, the red canoe resting upside down on the sand. The dog in his yellow life vest wades in up to his knees and drinks from the flat clear water, then looks back at the camera with water dripping from his chin. Sound: lapping water, canoe flipping over on sand, a loon calling far away. 20-25s (Paddling off): Out on the calm second lake, bright early afternoon, still water and spruce shoreline. The dog sits in the middle of the red canoe in his yellow life vest, facing forward, ears moving in the breeze. The owner's paddle dips into the water at the edge of the frame. Sound: paddle dipping, drips, a loon calling, owner says "onward".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Landing the canoe

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Rocky shore of a calm lake, cool sunny morning, dark spruce trees behind. A red canoe glides gently onto the shore. The dog, wearing a yellow life vest with a grab handle, steps out onto the flat rocks as the owner holds the handle, then shakes his head and sniffs the shoreline. Sound: canoe scraping rock, water lapping, owner says "careful, okay".

Clip 2 | 5-10s | Portage trail

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
