Island Hopping With My Boy

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm-sea island hopping day: life vest on at the dock, a small boat ride, running on the first island's beach, exploring tide pools and a late afternoon rest on the second island.

TIMELINE

0-5s	Life vest on
5-10s	Boat ride
10-15s	Beach run
15-20s	Tide pools
20-25s	Island rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Life vest on): Small wooden harbor dock, bright sunny morning, calm blue water, a few small boats tied up. The owner's hands buckle a bright orange dog life vest with a handle onto the dog. He stands still, sniffing the salty air, tail wagging, as she checks the straps. Sound: gulls, water lapping on the posts, owner says "island day". 5-10s (Boat ride): Small open motorboat moving gently across calm flat sea, sunny morning, green islands ahead. The dog sits on the boat floor between the owner's knees in his orange life vest, ears blowing back in the breeze, nose raised and sniffing the sea air. Sound: steady motor hum, water rushing past the hull, wind on the mic. 10-15s (Beach run): Small sandy beach on the first island, bright late morning sun, calm turquoise water and a few rocks. The dog, life vest unclipped and off, runs happy loops across the firm wet sand, kicking up spray at the water's edge, then races back toward the camera. Sound: paws pounding sand, small waves, owner laughing "go, go!". 15-20s (Tide pools): Rocky shoreline of the island, midday sunlight, shallow tide pools among flat dark rocks and seaweed. The dog carefully steps between the pools, lowers his nose to the clear water and sniffs at a small crab scuttling away, then jumps back in surprise. Sound: water trickling, gulls, owner says "gentle, he's tiny". 20-25s (Island rest): Grassy meadow above a sandy beach on the second island, late afternoon warm sunlight, calm sea and other islands in the distance. The dog lies in the grass with his damp, sandy white coat, panting happily, while the owner's hand brushes sand off his ears. Sound: soft waves below, wind in the grass, a contented sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Life vest on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
