Adventure Puppy's First Trail

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy's very first tiny trail walk: hopping out of the van, sniffing the path, climbing over a root, a water break and getting carried back asleep.

TIMELINE

0-5s	Out of the van
5-10s	Sniffing the path
10-15s	Root climb
15-20s	Water break
20-25s	Carried back asleep

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old male white German Shepherd puppy with fluffy pure white fur, black nose, oversized paws and floppy ears, wearing a small tan collar. 0-5s (Out of the van): Gravel trailhead parking area, cool overcast morning, tall pines behind. The sage green camper van with no writing or logos stands with its side door open. The owner's hands, in the sleeves of a green rain jacket, set the puppy down on the gravel from a small travel crate, and he sniffs around her muddy hiking boots. Sound: crunching gravel, birds, owner says "okay, first trail ever". 5-10s (Sniffing the path): Wide flat forest trail of packed brown dirt, soft overcast light between tall pine trunks. The puppy waddles ahead on a thin light leash, stops at a pinecone, sniffs it, bats it with one oversized paw, then turns and looks back at the camera with his floppy ears bouncing. Sound: tiny paws on dirt, wind in the pines, owner giggling quietly. 10-15s (Root climb): Same flat forest trail, a thick knobby tree root runs across the path, overcast daylight. The puppy tries to step over it, his belly scrapes the top, he scrambles with his back legs, tumbles over onto the dirt, gets up, shakes his whole body and trots on with his tail wagging. Sound: small grunt, collar tag jingling, owner says "you did it". 15-20s (Water break): Edge of the trail beside green ferns and a mossy log, flat grey daylight. The owner's hand holds a small blue collapsible silicone bowl near the ground with a little water in it. The puppy laps eagerly, his nose bumps the bowl, and drops of water hang from his fluffy white chin. Sound: fast little laps, dripping, a distant woodpecker. 20-25s (Carried back asleep): Point of view walking back along the wide forest trail, overcast light. The puppy is cradled in the owner's arm against her green rain jacket, eyes closed, one big paw dangling, fast asleep. Ahead at the end of the trail the sage green camper van is waiting in the small gravel lot. Sound: owner's boots on dirt, soft puppy breathing, owner whispers "best hiker ever".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Out of the van

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old male white German Shepherd puppy with fluffy pure white fur, black nose, oversized paws and floppy ears, wearing a small tan collar. Gravel trailhead parking area, cool overcast morning, tall pines behind. The sage green camper van with no writing or logos stands with its side door open. The owner's hands, in the sleeves of a green rain jacket, set the puppy down on the gravel from a small travel crate, and he sniffs around her muddy hiking boots. Sound: crunching gravel, birds, owner says "okay, first trail ever".

Clip 2 | 5-10s | Sniffing the path

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. Point of view walking back along the wide forest trail, overcast light. The puppy is cradled in the owner's arm against her green rain jacket, eyes closed, one big paw dangling, fast asleep. Ahead at the end of the trail the sage green camper van is waiting in the small gravel lot. Sound: owner's boots on dirt, soft puppy breathing, owner whispers "best hiker ever".

FACEBOOK CAPTION

His first trail was about 400 meters long.
He napped for three hours after. Worth it?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
