Puppy's First Camping Night

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy's first night at camp: inspecting the tent bag, dinner at the campsite, exploring inside the tent, a lantern-lit bedtime and waking up in the morning.

TIMELINE

0-5s	Inspecting the tent
5-10s	Campsite dinner
10-15s	Exploring the tent
15-20s	Lantern bedtime
20-25s	Morning wake-up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old male white German Shepherd puppy with fluffy pure white fur, black nose, oversized paws and floppy ears, wearing a small tan collar. 0-5s (Inspecting the tent): Grassy forest campsite in late afternoon, natural daylight through birch trees, the sage green camper van with no writing or logos parked nearby. A rolled-up green tent bag lies on the grass. The puppy sniffs it all over, grabs the loose strap with his teeth and tugs it backwards a few inches. Sound: birds, rustling nylon, owner laughs "that is not a toy". 5-10s (Campsite dinner): Same campsite, early evening shade, a wooden picnic table in the background. On a flat patch of grass the puppy eats soft puppy kibble from a small steel bowl, tail wagging, pushing the bowl along the ground with his nose. The owner's camp stove sits far away on the picnic table, out of his reach. Sound: kibble crunching, bowl scraping, crickets starting. 10-15s (Exploring the tent): Inside a small green dome tent at dusk, door unzipped, fading natural light coming through. A folded grey fleece blanket lies on the sleeping pad. The puppy waddles in, sniffs every corner of the tent floor, pounces on the owner's rolled-up sock, and flops down onto the blanket. Sound: crinkling tent floor, tiny paws, owner says "this is your bed tonight". 15-20s (Lantern bedtime): Same tent at night, lit only by a small battery camping lantern hanging from the tent ceiling. The puppy lies curled on the grey fleece blanket beside the owner's sleeping bag, eyes heavy. The owner's hand gently strokes his back and his eyes slowly close, one floppy ear folded over. Sound: crickets outside, an owl far away, puppy's sleepy sigh. 20-25s (Morning wake-up): Same tent at early morning, pale daylight coming through the green fabric. The owner's point of view from inside her sleeping bag. The puppy wakes up, stretches with his bottom in the air, yawns wide, then waddles over and licks her chin, tail wagging hard against the sleeping bag. Sound: morning birds, rustling sleeping bag, owner laughs "good morning camper".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Inspecting the tent

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old male white German Shepherd puppy with fluffy pure white fur, black nose, oversized paws and floppy ears, wearing a small tan collar. Grassy forest campsite in late afternoon, natural daylight through birch trees, the sage green camper van with no writing or logos parked nearby. A rolled-up green tent bag lies on the grass. The puppy sniffs it all over, grabs the loose strap with his teeth and tugs it backwards a few inches. Sound: birds, rustling nylon, owner laughs "that is not a toy".

Clip 2 | 5-10s | Campsite dinner

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
