Puppy Rides in My Backpack

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy tries a ventilated dog carrier backpack for a few minutes on the trail: checking it out, riding with his head out, watching a stream, a meadow break and a nap in the van.

TIMELINE

0-5s	Checking the carrier
5-10s	Riding with head out
10-15s	Watching the stream
15-20s	Meadow break
20-25s	Nap in the van

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old male white German Shepherd puppy with fluffy pure white fur, black nose, oversized paws and floppy ears, wearing a small tan collar. 0-5s (Checking the carrier): Inside the sage green camper van, plain daylight through the open side door. A grey dog carrier backpack with mesh ventilation panels and an open top sits on the van floor. The puppy sniffs the mesh sides, then climbs in on his own and sits, his head poking out of the top. Sound: rustling fabric, collar tag clinking, owner says "you like it?". 5-10s (Riding with head out): Wide forest trail on a mild cloudy afternoon. The owner holds the phone out to film over her shoulder, showing the edge of her long auburn braid and her green rain jacket. The puppy's head pokes out of the ventilated carrier backpack, ears flopping with each step, nose sniffing the air. Sound: owner's footsteps, birds, owner says "just for this steep bit". 10-15s (Watching the stream): Small wooden footbridge over a shallow rocky stream, soft cloudy daylight. The owner stands still in the middle of the bridge. From the carrier backpack the puppy stretches his neck to watch the water flowing over the stones below, his head tilting left and right. Ferns line both banks of the water. Sound: bubbling stream, wind in leaves, puppy's little huff. 15-20s (Meadow break): Flat grassy meadow at the top of the short climb, cloudy afternoon light, wildflowers in the grass. After only a few minutes in the backpack, the puppy is back on his own paws on a light leash, trotting through the short grass and pouncing on a dandelion head. Sound: grass rustling, tiny pounces, owner says "stretch those legs". 20-25s (Nap in the van): Inside the parked sage green camper van, late afternoon daylight through the window. The empty carrier backpack lies open on the floor. The puppy is sprawled on his back on a folded grey blanket next to it, oversized paws in the air, fast asleep with his belly rising and falling. Sound: quiet van, soft puppy snores, owner whispers "tough day".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Checking the carrier

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
