His First Big Mountain

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The lanky teenager's first big mountain day: starting at the trailhead, wide switchbacks, a water and snack break, the wide summit meadow and a sleepy ride home.

TIMELINE

0-5s	Trailhead start
5-10s	Wide switchbacks
10-15s	Snack break
15-20s	Summit meadow
20-25s	Sleepy ride home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 6-month-old male white German Shepherd, lanky with long legs and big ears, one ear still slightly floppy, white coat, wearing a small grey harness over a tan collar. 0-5s (Trailhead start): Early morning at a mountain trailhead, cool pale daylight, rocky peaks in the distance, the sage green camper van with no writing or logos parked on gravel. The dog stands beside the owner's hiking boots, big ears up, tail swishing, pulling a little toward the start of the wide trail. Sound: morning birds, crunching gravel, owner says "big day today, buddy". 5-10s (Wide switchbacks): Wide dirt switchback trail on a grassy mountainside, bright cloudy daylight, low shrubs on both sides. The dog trots up ahead on a long leash, his long legs a bit clumsy, then looks back down at the camera with his one floppy ear bouncing as the owner climbs behind him. Sound: heavy breathing from the owner, paws on dirt, wind. 10-15s (Snack break): Flat resting spot beside a big grey boulder on the wide trail, sunny mountain daylight. The owner's hand in a green rain jacket sleeve holds out a plain dog biscuit, and the dog takes it gently, then drinks from a blue collapsible bowl set on the ground beside the boulder. Sound: crunching biscuit, lapping water, owner says "halfway there". 15-20s (Summit meadow): Wide flat grassy summit meadow, far back from any edge, mountain ridges in the distance under scattered clouds and bright daylight. The dog sits beside the owner's legs in the grass, panting happily, ears turning toward the wind as he looks out at the view. A few small wildflowers bend in the grass. Sound: strong wind, owner out of breath says "we made it". 20-25s (Sleepy ride home): Inside the sage green camper van parked at the trailhead, late afternoon daylight through the back windows. The dog lies on a padded bed in the back, his grey harness clipped to a short safety tether, eyes half closed, his long legs stretched out across the bed. Sound: quiet van, a long tired sigh, owner whispers "proud of you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Trailhead start

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 6-month-old male white German Shepherd, lanky with long legs and big ears, one ear still slightly floppy, white coat, wearing a small grey harness over a tan collar. Early morning at a mountain trailhead, cool pale daylight, rocky peaks in the distance, the sage green camper van with no writing or logos parked on gravel. The dog stands beside the owner's hiking boots, big ears up, tail swishing, pulling a little toward the start of the wide trail. Sound: morning birds, crunching gravel, owner says "big day today, buddy".

Clip 2 | 5-10s | Wide switchbacks

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 6-month-old male white German Shepherd, lanky with long legs and big ears, one ear still slightly floppy, white coat, wearing a small grey harness over a tan collar. FACEBOOK CAPTION

Six months old and his first real summit.
He slept the whole evening. Do you remember your dog's first big hike?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
