Learning Trail Manners

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Training the teenager in good trail etiquette: waiting at the trailhead, stepping aside for hikers, leaving a pinecone, loose leash walking and a big reward.

TIMELINE

0-5s	Wait at the start
5-10s	Step aside
10-15s	Leave the pinecone
15-20s	Loose leash walk
20-25s	Big reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 6-month-old male white German Shepherd, lanky with long legs and big ears, one ear still slightly floppy, white coat, wearing a small grey harness over a tan collar. 0-5s (Wait at the start): Small gravel trailhead with a wooden fence and a forest trail beginning, cool morning daylight. The dog sits wiggling beside the owner's boots, staring at the trail. Her open hand is held up in a wait signal, and after a moment she nods and he bounces forward. Sound: birds, gravel crunching, owner says "wait... okay, let's go". 5-10s (Step aside): Wide forest trail, soft overcast daylight. A hiker in a blue jacket approaches from ahead. The owner guides the dog to the side of the trail where he sits on the grass edge, ears perked, watching the hiker walk past. The hiker smiles and nods as he passes. Sound: footsteps, hiker says "good boy", owner says "thank you". 10-15s (Leave the pinecone): Same forest trail, dappled cloudy light, pine needles on the dirt. The dog lowers his nose to a big pinecone. The owner says leave it, and he lifts his head, looks up at the camera, and gets a small treat from her hand instead. Tall pines stand quietly on both sides of the path. Sound: sniffing, owner says "leave it... yes, good". 15-20s (Loose leash walk): Long straight stretch of wide trail through tall grass, bright overcast daylight. Filmed from the owner's view looking down, the dog trots right beside her left leg with the leash hanging loose in a soft curve, glancing up at her every few steps. Pale seed heads sway on either side of the trail. Sound: steady footsteps, jingling tags, owner says "nice and easy". 20-25s (Big reward): Trail end beside the sage green camper van with no writing or logos, afternoon daylight. The owner crouches and the dog leans into her, tail wagging his whole back end. Her hands rub both of his big ears while he licks her chin. Her green rain jacket sleeve is dusty from the hike. Sound: happy whining, owner laughing "best trail manners".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Wait at the start

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 6-month-old male white German Shepherd, lanky with long legs and big ears, one ear still slightly floppy, white coat, wearing a small grey harness over a tan collar. Small gravel trailhead with a wooden fence and a forest trail beginning, cool morning daylight. The dog sits wiggling beside the owner's boots, staring at the trail. Her open hand is held up in a wait signal, and after a moment she nods and he bounces forward. Sound: birds, gravel crunching, owner says "wait... okay, let's go".

Clip 2 | 5-10s | Step aside

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
