Trail Snack Taste Test

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A trail break taste test of dog-safe snacks: a carrot stick, a seedless apple slice, blueberries, a plain dog biscuit and his final pick.

TIMELINE

0-5s	Carrot stick
5-10s	Apple slice
10-15s	Blueberries
15-20s	Plain dog biscuit
20-25s	Final pick

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Carrot stick): Fallen log used as a bench beside a forest trail, soft cloudy daylight. The owner's hand holds out a peeled carrot stick. The dog sniffs it carefully, takes it gently, lies down on the dirt and crunches it loudly, little orange bits falling between his paws. Sound: loud crunching, birds, owner says "snack number one". 5-10s (Apple slice): Same log by the forest trail, cloudy daylight. The owner's open palm holds a thin apple slice with the core and seeds already cut away. The dog sniffs, licks it once, then takes it and chews with his head tilted, a bit of juice on his lips. Sound: crisp chewing, owner says "no seeds, just apple". 10-15s (Blueberries): Same log, light breeze, overcast daylight. The owner's flat palm holds five fresh blueberries. The dog licks them up one by one with his tongue, chasing the last one that rolls to the edge of her hand, then sniffs her empty palm for more. Ferns and moss cover the forest floor behind the log. Sound: slurping licks, owner laughing "that tickles". 15-20s (Plain dog biscuit): Same forest trail log, overcast daylight. The owner holds a plain bone-shaped dog biscuit between two fingers. The dog sits up straight on command, takes it carefully, and crunches it in two bites, crumbs falling on his white chest fur. A small cloth snack pouch hangs open from her belt, and he waits politely for the next one. Sound: crunching, owner says "classic choice". 20-25s (Final pick): Same log, cloudy daylight. The owner holds out two closed fists, one hiding a carrot stick and one a dog biscuit, then opens both hands. The dog looks between them, sniffs both, and takes the carrot, crunching it happily. The forest trail stretches away behind them under grey sky. Sound: sniffing, crunching, owner says "carrot wins, really?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
