Napping in the Tent

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He treats the tent as his personal napping room: an afternoon nap, claiming the sleeping bag, sleeping through rain, snoring and a big stretch out the door.

TIMELINE

0-5s	Afternoon nap
5-10s	Claiming the sleeping bag
10-15s	Sleeping through rain
15-20s	Snoring
20-25s	Stretch out the door

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Afternoon nap): Inside a small green dome tent on a warm afternoon, door unzipped, natural daylight coming through the mesh. The dog is curled up on a blue sleeping pad, nose tucked into his tail, one ear twitching as the owner leans in with the camera. Her hiking boots lie by the tent door. Sound: breeze, birds outside, owner whispers "he is in here again". 5-10s (Claiming the sleeping bag): Same tent, late afternoon light. The owner's hand tugs gently on the corner of a red sleeping bag that the dog is sprawled across. He opens one eye, sighs heavily, and does not move at all, his paws stretched across the whole bag. A pair of wool socks lies crumpled beside his head. Sound: rustling fabric, a deep dog sigh, owner laughs "that is mine". 10-15s (Sleeping through rain): Same tent during a light rain shower, grey daylight through the green fabric, raindrops visible tapping on the mesh window. The dog sleeps on his side on the sleeping pad, legs stretched out, completely relaxed while the owner's feet rest beside him. A small battery lantern hangs unused from the tent ceiling. Sound: steady rain tapping on the tent, soft dog breathing. 15-20s (Snoring): Same tent in the evening, lit by a small battery lantern hanging from the ceiling. Close on the dog's face resting on a rolled-up fleece jacket, mouth slightly open, lips puffing with each breath, paws twitching a little as he dreams. His thick white coat rises and falls with each snore. Sound: loud dog snoring, crickets outside, owner trying not to laugh. 20-25s (Stretch out the door): Campsite in the morning, cool natural daylight, the sage green camper van with no writing or logos parked nearby. The dog crawls out of the tent door, does a long front stretch on the grass with his bottom still inside the tent, then yawns loudly. Dew sparkles on the grass around the tent. Sound: tent zipper, a big yawn, owner says "good morning sleepyhead".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Afternoon nap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Inside a small green dome tent on a warm afternoon, door unzipped, natural daylight coming through the mesh. The dog is curled up on a blue sleeping pad, nose tucked into his tail, one ear twitching as the owner leans in with the camera. Her hiking boots lie by the tent door. Sound: breeze, birds outside, owner whispers "he is in here again".

Clip 2 | 5-10s | Claiming the sleeping bag

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
