Shaking Water on Everyone

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A lake day where he shakes water on the owner and a friendly fellow hiker: a calm wade in his life vest, shaking on the owner, then on the hiker, the useless towel shield and the goodbye.

TIMELINE

0-5s	Calm wade
5-10s	Shake on the owner
10-15s	Shake on the hiker
15-20s	Towel shield
20-25s	Goodbye wave

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Calm wade): Calm clear lake shore with small pebbles, bright overcast daylight, pine forest across the water. The dog wades out up to his chest wearing a bright orange dog life vest over his harness, sniffing the flat water, then turns and splashes back toward shore. The owner stands on the shore holding his leash loosely. Sound: gentle lapping, splashing, owner says "okay, come back". 5-10s (Shake on the owner): Pebble shore of the same lake, overcast daylight. The dripping dog walks right up to the owner's legs, she is in a green rain jacket, and does a huge full-body shake. Spray flies all over her jeans and jacket and the camera jolts as she steps back. Sound: loud shake, owner shrieks and laughs "no, no, no". 10-15s (Shake on the hiker): Same lakeside, a friendly fellow hiker, a grey-bearded man in a blue cap and backpack, crouches to say hello. The still-wet dog sniffs his hand, then shakes again right in front of him. The hiker turns his face away, laughing, water dotting his jacket. Small pebbles crunch under their boots as they step back. Sound: spraying water, hiker laughs "I deserved that". 15-20s (Towel shield): Same pebble shore, overcast light. The owner holds up a big grey towel in front of her like a wall. The dog walks around the side of the towel and shakes anyway, water landing on her boots and the towel useless in her hands. Pine trees line the far side of the calm lake. Sound: shake, owner laughing "he went around it". 20-25s (Goodbye wave): Trail beside the lake, brighter overcast daylight. The dog, now only damp, sits calmly on the pebbles with his life vest off. The friendly hiker wipes his jacket sleeve, smiles, waves goodbye and walks away along the shore. The orange life vest lies drying on a flat rock beside the owner's backpack, and calm water stretches behind them. Sound: water lapping, hiker says "have a good hike", owner says "sorry again".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Calm wade

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Calm clear lake shore with small pebbles, bright overcast daylight, pine forest across the water. The dog wades out up to his chest wearing a bright orange dog life vest over his harness, sniffing the flat water, then turns and splashes back toward shore. The owner stands on the shore holding his leash loosely. Sound: gentle lapping, splashing, owner says "okay, come back".

Clip 2 | 5-10s | Shake on the owner

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
