Windiest Day on the Coast

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A wild windy day at a wide sandy coast: the van door blowing open, ears in the wind, the owner's braid flying, sand in the dune grass and shaking off the sand in the van.

TIMELINE

0-5s	Door in the wind
5-10s	Ears in the wind
10-15s	Flying braid
15-20s	Dune grass
20-25s	Sand shake

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Door in the wind): Coastal parking area by sand dunes, bright grey sky, strong wind. The sage green camper van with no writing or logos stands with its side door sliding open. The dog hops down to the sand, and his fur instantly blows sideways as he squints into the wind. Sound: roaring wind, van door rattling, owner says "oh wow, okay". 5-10s (Ears in the wind): Wide flat sandy beach far from any rocks, cloudy daylight, white-capped waves far out in the distance. Close on the dog trotting into the wind, his upright ears pushed back and his white coat rippling in waves along his back. Wet sand shines along the waterline and loose foam blows across the beach past his paws. Sound: loud wind on the phone mic, distant surf. 10-15s (Flying braid): Same windy beach, overcast daylight. The owner holds the phone out to film herself from behind and the side, her long auburn braid whipping across her green rain jacket. The dog walks beside her, leaning slightly into the wind. Grey clouds race overhead and loose sand blows past their legs as they walk along the empty beach. Sound: howling wind, owner laughing "I cannot hear anything". 15-20s (Dune grass): Low grassy sand dunes behind the beach, flat grey daylight, tall pale grass bending hard in the wind. The dog sniffs along a sandy path between the grass, sand blowing across the ground around his paws, and sneezes. Grey clouds move fast across the sky, and the sea is a faint grey line beyond the dunes. Sound: hissing grass, sand ticking, sneeze. 20-25s (Sand shake): Inside the parked van, side door now closed, grey daylight through the windows. The dog stands on the floor mat and shakes off, and a cloud of fine sand sprays from his coat onto the floor and the owner's knees. The windows rattle softly in the gusts, and a towel hangs from a hook by the door. Sound: muffled wind outside, shake, owner says "half the beach came with us".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Door in the wind

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Coastal parking area by sand dunes, bright grey sky, strong wind. The sage green camper van with no writing or logos stands with its side door sliding open. The dog hops down to the sand, and his fur instantly blows sideways as he squints into the wind. Sound: roaring wind, van door rattling, owner says "oh wow, okay".

Clip 2 | 5-10s | Ears in the wind

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
