After-Hike Paw and Tick Check

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The after-hike body check routine: lying down for the check, paw pads, a tick check through the coat, ears and burr brushing, and a reward.

TIMELINE

0-5s	Lying down
5-10s	Paw pads
10-15s	Tick check
15-20s	Ears and burrs
20-25s	Reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Lying down): Inside the sage green camper van, late afternoon daylight through the open side door. The dog lies down on a grey fleece blanket on the floor and rolls onto his side when the owner pats it, his white coat a little dusty from the trail. Her muddy hiking boots sit by the door. Sound: blanket rustling, birds outside, owner says "check time". 5-10s (Paw pads): Same van floor, daylight from the door. The owner's hands hold one of the dog's back paws and gently spread his toes, looking at the black pads and between them for thorns or small stones. He lies still and watches her. Pine trees are visible through the open door behind them. Sound: quiet, dog breathing, owner says "all good, next paw". 10-15s (Tick check): Same van, plain daylight. The owner's fingers slowly part the thick white fur around the dog's neck and behind his front leg, checking the skin underneath. He gives a lazy tail thump against the blanket. Late afternoon daylight falls across his white coat from the open side door, and her other hand rests on his ribs. Sound: fur rustling, tail thump, owner says "no ticks today". 15-20s (Ears and burrs): Same van floor, daylight. The owner's hand lifts one upright ear to look inside, then picks up a small slicker brush and gently brushes a few dry burrs out of the fluffy fur on the back of his leg. He lies still with his eyes half closed, enjoying the attention on the blanket. Sound: brush strokes, a happy grunt, owner says "so many burrs". 20-25s (Reward): Same van, late afternoon light. The dog sits up on the blanket, and the owner's hand offers him a small plain dog biscuit. He takes it gently and crunches it, then licks his lips and leans against her knee. Pine trees and the gravel lot are visible through the open side door. Sound: crunching, owner says "good boy, all clear".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lying down

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Inside the sage green camper van, late afternoon daylight through the open side door. The dog lies down on a grey fleece blanket on the floor and rolls onto his side when the owner pats it, his white coat a little dusty from the trail. Her muddy hiking boots sit by the door. Sound: blanket rustling, birds outside, owner says "check time".

Clip 2 | 5-10s | Paw pads

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
