# Taking In Every View With Me

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

Quiet moments looking at the view together in five places: a lake overlook, a sunrise meadow, a forest clearing, a desert viewpoint and the van's back step.

## TIMELINE

| | |
|---|---|
| **0-5s** | Lake overlook |
| **5-10s** | Sunrise meadow |
| **10-15s** | Forest clearing |
| **15-20s** | Desert viewpoint |
| **20-25s** | Back step view |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Lake overlook): Wide flat rock area well back from the slope above a blue mountain lake, bright overcast daylight. Filmed from behind, the owner in her green rain jacket sits with her arm around the dog, both looking out at the water, his ears turning to the breeze. Sound: wind, distant birds, owner sighs "look at that". 5-10s (Sunrise meadow): Open grassy meadow at sunrise, soft pale orange light low on the horizon, dew on the grass. The dog sits beside the owner's knees in the grass, calmly watching the sky brighten, his white coat tinted warm by the early light. Her green rain jacket sleeve rests on his shoulder. Sound: early birdsong, quiet breathing. 10-15s (Forest clearing): Small clearing in a tall pine forest, soft daylight falling through the tree gaps. The dog lies down on the pine needles beside the owner's boots, chin up, looking around at the trees while her hand rests on his back. Sunlight spots move gently on the ground as the branches sway. Sound: wind in the pines, a woodpecker, soft panting. 15-20s (Desert viewpoint): Wide flat sandy viewpoint far from any edge, early morning, cool pale light over red rock hills in the distance. The dog stands next to the owner's legs, nose lifted, sniffing the dry air and gazing out at the rocks. Low dry shrubs dot the sandy ground around them. Sound: dry breeze, faint bird calls, owner says "so quiet here". 20-25s (Back step view): Evening at a quiet valley pullout, soft fading daylight, rolling green hills ahead. The owner sits on the back step of the sage green camper van with no writing or logos, and the dog sits on the ground beside her, leaning his shoulder into her leg. Sound: crickets, distant cowbells, owner whispers "every view is better with you".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
