Our Favorite Campsite Ever

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A day at their favorite lakeside campsite: arriving, exploring, lounging on the camp mat, a safe evening dinner setup and a misty morning by the lake.

TIMELINE

0-5s	Arriving
5-10s	Exploring the site
10-15s	Lounging on the mat
15-20s	Safe dinner setup
20-25s	Misty morning

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Arriving): Grassy lakeside campsite surrounded by birch trees, bright afternoon daylight, calm lake in the background. The sage green camper van with no writing or logos rolls to a stop. The side door opens and the dog hops out onto the grass, sniffing excitedly. Pine needles and a few birch leaves cover the ground near the fire ring, which sits empty and unlit. Sound: engine turning off, birds, owner says "we are back". 5-10s (Exploring the site): Same campsite, afternoon daylight. The dog trots around the edge of the site on a long line, sniffing the base of a birch tree, the wooden picnic table legs and a flat rock, tail wagging as he checks every spot. The sage green camper van stands parked at the side of the site. Sound: paws on grass, distant loons, owner laughing "checking everything". 10-15s (Lounging on the mat): Same campsite, warm late afternoon light. A woven outdoor mat lies on the grass beside two folding camp chairs. The dog stretches out on his side on the mat, eyes half closed, while the owner's legs and boots rest beside him. A water bowl sits in the grass next to the mat. Sound: breeze, lake lapping softly, dog's content sigh. 15-20s (Safe dinner setup): Same campsite at early evening, soft fading daylight. A small camp stove sits on the far end of the wooden picnic table, well away from the dog. He lies on his blanket a few meters from the table, chewing a rubber chew toy, watching the owner cook. Sound: stove hissing far away, chewing, owner says "stay on your blanket". 20-25s (Misty morning): Same lakeside campsite at dawn, pale grey light, thin mist floating over the calm lake. The owner's hands hold a steaming metal mug. The dog sits beside her chair on the dewy grass, watching the mist on the water. Her green rain jacket is zipped up against the cool air, and birch trees stand still behind them. Sound: quiet, a loon calling, owner whispers "best spot in the world".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Arriving

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Grassy lakeside campsite surrounded by birch trees, bright afternoon daylight, calm lake in the background. The sage green camper van with no writing or logos rolls to a stop. The side door opens and the dog hops out onto the grass, sniffing excitedly. Pine needles and a few birch leaves cover the ground near the fire ring, which sits empty and unlit. Sound: engine turning off, birds, owner says "we are back".

Clip 2 | 5-10s | Exploring the site

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
